SELECTED AGRICULTURAL STATISTICS FOR CANADA

ECONOMICS BRANCH,
AGRICULTURE CANADA,
OTTAWA.

APRIL 1973.

Publication 73/2

FOREWORD

The primary purpose of this handbook is to provide officials in the Department of Agriculture with a ready reference for a variety of statistics that are frequently used. The basic data are drawn from Statistics Canada publications and are updated and revised annually in order to maintain their usefulness.

In addition to updating the 1969 handbook, this report also incorporates the following changes:

- (1) The handbook has been expanded by including more tables and incorporating more detail into some of the tables.
- (2) The number of years of data carried in each table is generally reduced. However, the years included have been selected with the view of maximum comparability between data in the different tables and to provide a historical perspective to the series.
- (3) For census data, the census years 1941, 1951, 1956, 1961, 1966 and 1971 are carried. This gives historical perspective to the data from a date early in the second world war.
- (4) For non-census data, in addition to 1951, 1956, 1961, and 1966, the period 1935-39, the year 1949 and generally the current data for the years 1967 to 1971 inclusive, are also carried. The 1935-39 period is included to extend the historical perspective for non-census data to the immediate pre-war period. In this respect, it is similar to and replaces the year 1941 in the census data. The year 1949 is included because it is one of the important statistical base periods in the immediate post-war years.

The data were assembled and up-dated by Robert Daviault.

If further information is required, reference should be made to the source publications listed at the bottom of each table.

TABLE OF CONTENTS

SECTION		PAGE
1	CENSUS DATA	1
2	CAPITAL VALUES	34
3	ACRES IN CROPS	45

SECTION 1 - CENSUS DATA - TABLES 1 - 25

Population

The "farm" population comprises all persons living on a census farm, regardless of their occupation. The same definition applied to all censuses, 1951, 1956, 1961, 1966 and 1971.

Definition of a Farm

In the 1941 census a farm was defined as all the land located in one municipality or census subdivision which was directly farmed by one person conducting agricultural operations either by his own labor or with the assistance of members of his household or with hired help. A farm could consist of a single tract of land or a number of separate tracts held under the same or different tenures so long as the total area was one acre or more in extent and had agricultural production in 1940 valued at \$50 or more. For purposes of the 1951 census, a farm was defined to be three acres or more in size or one to three acres in size with agricultural production in 1950 of a value of \$250 or more. Where a farm consisted of a number of parts all of which were not situated in the same municipality the census reported the complete farm as one unit in the municipality where the headquarters were located. In the 1961, 1966 and 1971 censuses, a farm was defined as an agricultural holding of one acre or more with sales of agricultural products during the previous 12 months of \$50 or more.

The number of farms in Canada was 732,858 in 1941, according to the then prevailing census definition of a farm; this number would come down to 677,500 if the 1951 definition had been used. In 1961 the number of farms was 480,903 on the basis of the 1961 census definition; had the 1951 definition been used, this figure would have been increased by 40,731. In 1966, the number of farms totalled 430,522. Farms, for census purpose, obviously include some units that do not correspond to what is commonly considered to be a farm. In 1971, the number of farms totalled 366,128.

^a Average 1935-39 live weights. Average annual price of Grade A hogs, dressed weight, at Toronto, excluding premiums. Effective 1969 Grade A hogs, replaced by Index 100.

^b Average annual price of choice slaughter steers, live weight, at Toronto. The average price for the average 1935-39 is the simple average of the price for steers over 1,050 pounds and the price for steers under 1,050 pounds. The average annual price from 1949 to 1957 is the simple average of the price for steers over 1,000 pounds and the price for steers under 1,000 pounds. From 1958 to 1971, the prices are weighted averaged for all weights of steers.

^c Average annual price to producers of Grade A chicken, live weight, at Toronto. From 1949 to 1956, the prices refer to chickens weighing less than 3 pounds; from 1957 to 1963, chickens weighing less than 4 pounds; from 1964 to 1971 chickens less than 5 pounds.

^d Average annual price to producers for all grades at registered grading stations in Canada, weighted by grade for each province.

SECTION 5 - FARM CASH RECEIPTS - TABLES 34 - 35

SECTION 6 - FARM EXPENSES - TABLES 36 - 40

SECTION 7 - FARM INCOME - TABLES 41 - 44

Farm Income

Farm Cash Receipts

Farm cash receipts include all cash receipts from the sales of farm products including Canadian Wheat Board participation payments on previous years' grain crops, net cash advances on farm-stored grain in Western Canada and deficiency payments made by the Agricultural Stabilization Board.

Net Income

Net income is the sum of farm cash receipts from the sales of farm products, income in kind and federal government supplementary payments, less operating expenses and depreciation charges. It is adjusted for inventory changes.

Income in Kind

This item represents the value of farm consumption of home-grown foodstuffs, wool and forest products plus an imputed rental value for the farm dwellings. The farm products consumed on the farm are valued at the price the farmer would have received had they been sold.

Supplementary Payments

These include payments made under the provisions of the Prairie Farm Assistance Act, the Western Grain Producers' Acreage Payment Plan, the Prairie Farm Income Plan, the Wheat Acreage Reduction Program, and payments made to Prince Edward Island potato growers in connection with losses as a result of fusarium rot in the 1960 potato crop.

Farm Expenses

These include the outlays made by farmers for the operation of the farm business regardless of whether they are paid for in cash or accumulated as new debt. Expenditures for goods and services obtained from other farmers are excluded. All subsidy payments are taken into account so that the estimates of expenditure represent only the net amounts paid by farmers.

SECTION 8 - FOOD CONSUMPTION AND RELATED DATA - TABLES 45 - 51

Food Consumption

Apparent per capita food consumption is calculated by dividing the amount of food available for domestic consumption by the total population.

To arrive at the amount of food available for domestic consumption, annual balance sheets are prepared showing supplies and disposition of each food. The supply of a commodity is determined by adjusting production figures to take into account exports, imports, changes that take place in processing, inventory changes and losses due to wastage and shrinkage. Deductions are also made for non-food uses.

This method only estimates the supply of food available to be consumed not the actual consumption, therefore, it is called apparent per capita consumption.

JULY 1974

Publication 74/10

FOREWORD

The primary purpose of this handbook is to provide officials in the Department of Agriculture with a ready reference for a variety of statistics that are frequently used. The basic data are drawn from Statistics Canada publications and are updated and revised annually in order to maintain their usefulness.

In addition to updating the 1969 handbook, this report also incorporates the following changes:

- (1) The handbook has been expanded by including more tables and incorporating more detail into some of the tables.
- (2) The number of years of data carried in each table is generally reduced. However, the years included have been selected with the view of maximum comparability between data in the different tables and to provide a historical perspective to the series.
- (3) For census data, the census years 1941, 1951, 1956, 1961, 1966 and 1971 are carried. This gives historical perspective to the data from a date early in the second world war.
- (4) For non-census data, in addition to 1951, 1956, 1961, and 1966, the period 1935-39, the year 1949 and generally the current data for the years 1967 to 1973 inclusive, are also carried. The 1935-39 period is included to extend the historical perspective for non-census data to the immediate pre-war period. In this respect, it is similar to and replaces the year 1941 in the census data. The year 1949 is included because it is one of the important statistical base periods in the immediate post-war years.

The data were assembled and compiled by Robert Daviault.

If further information is required, reference should be made to the source publications listed at the bottom of each table.

SECTION 1 - CENSUS DATA - TABLES 1 - 25

Population

The "farm" population comprises all persons living on a census farm, regardless of their occupation. The same definition applied to all censuses, 1951, 1956, 1961, 1966 and 1971.

Definition of a Farm

In the 1941 census a farm was defined as all the land located in one municipality or census subdivision which was directly farmed by one person conducting agricultural operations either by his own labor or with the assistance of members of his household or with hired help. A farm could consist of a single tract of land or a number of separate tracts held under the same or different tenures so long as the total area was one acre or more in extent and had agricultural production in 1940 valued at \$50 or more. For purposes of the 1951 census, a farm was defined to be three acres or more in size or one to three acres in size with agricultural production in 1950 of a value of \$250 or more. Where a farm consisted of a number of parts all of which were not situated in the same municipality the census reported the complete farm as one unit in the municipality where the headquarters were located. In the 1961, 1966 and 1971 censuses, a farm was defined as an agricultural holding of one acre or more with sales of agricultural products during the previous 12 months of \$50 or more.

The number of farms in Canada was 732,858 in 1941, according to the then prevailing census definition of a farm; this number would come down to 677,500 if the 1951 definition had been used. In 1961 the number of farms was 480,903 on the basis of the 1961 census definition; had the 1951 definition been used, this figure would have been increased by 40,731. In 1966, the number of farms totalled 430,522. Farms, for census purpose, obviously include some units that do not correspond to what is commonly considered to be a farm. In 1971, the number of farms totalled 366,128.

TABLE 6 - NUMBER AND PROPORTION OF FARM OPERATORS BY AGE GROUPS, CANADA^a, CENSUS YEARS, 1941 TO 1971^b

Year	Age of Farm Operators in Years									
	Under 25		25 to 34		35 to 69		70 and over		Total	
	number	percent	number	percent	number	percent	number	percent	number	percent
1941	20,942	3.1	113,004	16.8	496,382	73.7	43,472	6.4	673,800 ^c	100.0
1951	21,759	3.5	113,152	18.2	455,021	73.2	31,418	5.1	621,350 ^c	100.0
1961	12,354	2.6	68,026	14.2	372,612	77.4	27,911	5.8	480,903	100.0
1966	9,409	2.2	56,201	13.1	340,753	79.1	24,159	5.6	430,522	100.0
1971	8,649	2.4	46,886	12.8	292,517	79.9	18,076	4.9	366,128	100.0

^a Includes data for Yukon and Northwest Territories.

^b Figures for 1956 not available.

^c The figures for the total number of operators reporting age is the same as the number of census farms for 1961, 1966 and 1971. For the two other censuses not all operators reported their age, and subsequently the total number of operators reporting is lower than the total number of census farms, the latter were, 1941: 732,832; and 1951: 623,091 census farms.

a Figures for 1956 not available.

b Components do not necessarily sum to totals because of roundings.

c Automobiles and motor trucks are included in this category.

d From 1967 figures for livestock and poultry includes value of animals on fur farms: taken from the Quarterly Bulletin of Agricultural Statistics, Cat. No. 21-003, April to June 1974, Statistics Canada.

e Includes Newfoundland, and the Yukon and Northwest Territories.

f Excludes Newfoundland, and the Yukon and Northwest Territories.

g Excludes Newfoundland.

a Figures for 1956 not available.

b Components do not necessarily sum to totals because of roundings.

c Automobiles and motor trucks are included in this category.

d From 1967 figures for livestock and poultry, includes value of animals on fur farms: calculated from the Quarterly Bulletin of Agricultural Statistics, Cat. No. 21-003, April to June 1974, Statistics Canada.

e Includes Newfoundland, and the Yukon and Northwest Territories.

f Excludes Newfoundland, and the Yukon and Northwest Territories.

g Excludes Newfoundland.

Sources: Calculated from data in (1) 1966 Census of Canada, Agriculture, Statistics Canada.

(2) Quarterly Bulletin of Agricultural Statistics, Cat. No. 21-003, April to June 1974, Statistics Canada.

1969	35.70	31.10	20.2	37.7
1970	32.20	32.25	19.2	29.6
1971	25.80	34.30	20.7	25.4
1972	37.39	37.19	22.2	31.2
1973	54.66	46.56	31.6	53.8

- a Average 1935-39 live weights. Average annual price of Grade A hogs, dressed weight, at Toronto, excluding premiums. Effective 1969 Grade A hogs, replaced by Index 100.
- b Average annual price of Choice slaughter steers, live weight, at Toronto. The average price for the average 1935-39 is the simple average of the price for steers over 1,050 pounds and the price for steers under 1,050 pounds. The average annual price from 1949 to 1957 is the simple average of the price for steers over 1,000 pounds and the price for steers under 1,000 pounds. From 1958 to 1973, the prices are weighted average for all weights of steers.
- c Average annual price to producers of Grade A chicken, live weight, at Toronto. From 1949 to 1956, the prices refer to chickens weighing less than three pounds; from 1957 to 1963, chickens weighing less than four pounds; from 1964 to 1973 chickens less than five pounds.
- d Average annual price to producers for all grades at registered grading stations in Canada, weighted by grade for each province.

SECTION 5 - FARM CASH RECEIPTS - TABLES 36-37

SECTION 6 - FARM EXPENSES - TABLES 38-43

SECTION 7 - FARM INCOME - TABLES 44-47

Farm Income

Farm Cash Receipts

Farm cash receipts include all cash receipts from the sales of farm products including Canadian Wheat Board participation payments on previous years' grain crops, net cash advances on farm-stored grain in Western Canada and deficiency payments made by the Agricultural Stabilization Board.

Net Income

Net income is the sum of farm cash receipts from the sales of farm products, income in kind and federal government supplementary payments, less operating expenses and depreciation charges. It is adjusted for inventory changes.

Income in Kind

This item represents the value of farm consumption of home-grown foodstuffs, wool and forest products plus an imputed rental value for the farm dwellings. The farm products consumed on the farm are valued at the price the farmer would have received had they been sold.

Supplementary Payments

These include payments made under the provisions of the Prairie Farm Assistance Act, the Western Grain Producers' Acreage Payment Plan, the Prairie Farm Income Plan, the Wheat Acreage Reduction Program, and payments made to Prince Edward Island potato growers in connection with losses as a result of fusarium rot in the 1960 potato crop.

Farm Expenses

These include the outlays made by farmers for the operation of the farm business regardless of whether they are paid for in cash or accumulated as new debt. Expenditures for goods and services obtained from other farmers are excluded. All subsidy payments are taken into account so that the estimates of expenditure represent only the net amounts paid by farmers.

SECTION 8 - FOOD CONSUMPTION AND RELATED DATA - TABLES 48-54

Food Consumption

Apparent per capita food consumption is calculated by dividing the amount of food available for domestic consumption by the total population.

To arrive at the amount of food available for domestic consumption, annual balance sheets are prepared showing supplies and disposition of each food. The supply of a commodity is determined by adjusting production figures to take into account exports, imports, changes that take place in processing, inventory changes and losses due to wastage and shrinkage. Deductions are also made for non-food uses.

This method only estimates the supply of food available to be consumed not the actual consumption, therefore, it is called apparent per capita consumption.

FOREWORD

The purpose of this annual handbook is to provide a handy statistical reference on Canadian agriculture for a large general audience. Most of the data is drawn from Statistics Canada publications.

Data for census years 1941, 1951, 1956, 1961, 1966 and 1971 are included in order that there be an historical perspective.

For non-census data, in addition to 1951, 1956, 1961 and 1966, the period 1935-39, the year 1949 and the years 1967 to 1974 inclusive are provided. The 1935-39 period extends the historical perspective for non-census data to the immediate pre-war period. In this respect it is similar to and replaces the year 1941 in the census data. The year 1949 is included because it is one of the important statistical base periods in the immediate post-war years.

For further information, reference should be made to the source publications listed at the bottom of each table.

Readers are invited to comment on this publication and a questionnaire is provided for this purpose.

AVANT-PROPOS

Ce texte est publié annuellement afin de rendre disponibles toutes les importantes statistiques agricoles canadiennes à une grande variété de lecteurs. La plupart des données sont tirées de publications de Statistique Canada.

Les données des années de recensement 1941, 1951, 1956, 1961, 1966 et 1971 sont incluses afin que le lecteur puisse avoir une perspective historique.

Les données hors-recensement de la période 1935 à 1939, de 1949 et des années 1967 à 1974 sont présentées. La période 1935 à 1939 donne une perspective historique des années qui ont précédé la guerre. Dans ce sens elle est semblable à et remplace 1941 dans les données de recensement. L'année 1949 est inscrite à cause de son importance comme base statistique dans les années d'après guerre.

Pour de plus amples détails, consultez les sources citées au bas des tableaux.

Les lecteurs sont invités à exprimer leurs opinions sur cette publication et un questionnaire est mis à leur disposition à la dernière page.

SECTION 1 - CENSUS DATA - TABLES 1 TO 28
SECTION 1 - DONNÉES DE RECENSEMENT - TABLEAUX 1 A 28

Population

The "Farm " population comprises all persons living on a census farm, regardless of their occupation. The same definition applied to all censuses, 1951, 1956, 1961, 1966 and 1971.

Definition of a Farm

In the 1941 census a farm was defined as all the land located in one municipality or census subdivision which was directly farmed by one person conducting agricultural operations either by his own labor or with the assistance of members of his household or with hired help. A farm could consist of a single tract of land or a number of separate tracts held under the same or different tenures so long as the total area was one acre or more in extent and had agricultural production in 1940 valued at \$50 or more. For purposes of the 1951 census, a farm was defined to be three acres or more in size or one to three acres in size with agricultural production in 1950 of a value of \$250 or more. Where a farm consisted of a number of parts all of which were not situated in the same municipality the census reported the complete farm as one unit in the municipality where the headquarters were located. In the 1961, 1966 and 1971 censuses, a farm was defined as an agricultural holding of one acre or more with sales of agricultural products during the previous 12 months of \$50 or more.

The number of farms in Canada was 732,858 in 1941, according to the then prevailing census definition of a farm; this number would come down to 677,500 if the 1951 definition had been used. In 1961 the number of farms was 480,903 on the basis of the 1961 census definition; had the 1951 definition been used, this figure would have been increased by 40,731. In 1966, the number of farms totalled 430,522. Farms, for census purposes, obviously include some units that do not correspond to what is commonly considered to be a farm. In 1971, the number of farms totalled 366,128.

Population

La population "agricole" comprend toutes les personnes habitant une ferme de recensement, peu importe leur occupation. La même définition s'est appliquée à tous les recensements (1951, 1956, 1961 1966 et 1971).

Définition de "ferme"

Dans le recensement de 1941, on entend par ferme la totalité des terres situées dans une municipalité ou une subdivision de recensement qui sont directement exploitées par une personne qui se livre à des spéculations agricoles, soit seul soit avec l'aide des membres de sa famille ou d'employés salariés. Une ferme peut être d'un seul tenant ou comporter un certain nombre de parcelles distinctes relevant d'un même régime foncier ou de régimes différents, pour autant que la superficie totale soit d'une acre ou plus et que la valeur de la production agricole soit au moins de \$50 (valeur de 1940). Le recensement de 1951 entend par ferme toute exploitation de trois acres ou plus d'une acre à trois acres dont la valeur de production en 1950 était d'au moins \$250 ou plus. Dans le cas d'une ferme se composant d'un certain nombre de parties non situées en totalité dans la même municipalité du domicile principal de l'agriculteur. Aux recensements de 1961, 1966 et 1971, on définissait la ferme de la façon suivante: propriété agricole d'une acre ou plus dont les ventes de produits agricoles dans les 12 mois précédents ont rapporté au moins \$50.

Il y avait 732,858 fermes au Canada en 1941, au sens du recensement appliqué à l'époque; ce nombre serait passé à 677,500 si l'on avait appliqué la définition de 1951. En 1961, il était de 480,903, suivant la définition établie pour cette année; selon les normes de 1951, il aurait compté 40,731 fermes de plus. En 1966, le nombre de fermes s'élevait à 430,522. Il est bien évident, que les fermes, au sens du recensement, comprend des unités qui ne correspondent pas à ce que l'on entend normalement comme ferme. En 1971, on a relevé 366,128 fermes.

TABLE 3 - AREA AND USE OF OCCUPIED FARM LAND, CANADA, PROVINCES, AND REGIONS, CENSUS YEARS, 1941 TO 1971^a (thousand acres) - concluded
TABLEAU 3 - SUPERFICIE ET UTILISATION DES TERRES AGRICOLES OCCUPEES, CANADA, PAR PROVINCE ET REGION, ANNEES DE RECENSEMENT 1941 A 1971^a (milliers d'acres) - fin

^aFigures not necessarily comparable between census years due to changes in the definition of a "census farm".

^aLes chiffres ne se comparent pas nécessairement d'une année à l'autre en raison du changement apporté à la définition de l'expression "Fermes de recensement".

^bComponents will not necessarily sum to totals because of roundings.

^bL'addition des groupes ne donnera pas nécessairement la même somme que le total indiqué parce que l'on a arrondi les chiffres.

^c"Improved Land" includes a category enumerated as "other improved land" as well as "Crops" "Fallow" and "Pasture". "Other improved land" includes the area of barnyards, home gardens, lanes and roads on farms, new breaking and improved land lying idle.

^cLes "terres défrichées" comprennent une catégorie désignée sous le nom de "autres terres défrichées" aussi bien que les terres en culture, en jachère et en pâturage. Les "autres terres défrichées" comprennent les cours, les jardins potagers, les entrées et chemins de ferme, ainsi que les terres nouvellement défrichées et les terres défrichées non utilisées.

^dIncludes fields, vegetables, fruit and nursery crop land.

^dComprend la terre à grandes cultures, à légumes, à fruits et à pépinières.

^eIncludes data for Newfoundland and the Yukon and Northwest Territories, from 1951.

^eComprend aussi les données pour Terre-Neuve, le Yukon et les Territoires du Nord-Ouest à partir de 1951.

^a Les chiffres ne se comparent pas nécessairement d'une année à l'autre en raison du changement apporté à la définition de l'expression "Fermes de recensement".

^b Components will not necessarily sum to totals because of roundings.

^b L'addition des groupes ne donnera pas nécessairement la même somme que le total indiqué parce que l'on a arrondi les chiffres.

^c "Improved Land" includes a category enumerated as "other improved land" as well as "Crops", "Fallow" and "Pasture". "Other improved land" includes the area of barnyards, home gardens, lanes and roads on farms, new breaking and improved land lying idle.

^c Les "terres défrichées" comprennent une catégorie désignée sous le nom de "autres terres défrichées", aussi bien que les terres en culture, en jachère et en pâturage. Les "autres terres défrichées" comprennent les cours, les jardins potagers, les entrées et chemins de ferme, ainsi que les terres nouvellement défrichées et les terres défrichées non utilisées.

^d Includes field, vegetable, fruit and nursery crop land.

^d Comprend la terre à grandes cultures, à légumes, à fruits et à pépinières.

^e Includes data for Newfoundland and the Yukon and Northwest Territories, from 1951.

^e Comprend aussi les données pour Terre-Neuve, le Yukon et les Territoires du Nord-Ouest à partir de 1951.

^a Includes data for Yukon and Northwest Territories.

^a Comprend les données du Yukon et des Territoires du Nord-Ouest.

^b Figures for 1956 not available.

^b Les chiffres pour 1956 ne sont pas disponibles.

^c The figures for the total number of operators reporting age is the same as the number of census farms for 1961, 1966 and 1971. For the two other censuses not all operators reported their age, and subsequently the total number of operators reporting is lower than the total number of census farms, the latter were, 1941: 732,832; and 1951: 623,091 census farms.

^c Les chiffres du nombre global des exploitants ayant déclaré leur âge est le même que le nombre des fermes de recensement pour 1961, 1966 et 1971. Lors des deux autres recensements, tous les exploitants n'ont pas indiqué leur âge, de sorte que le nombre global des exploitants ayant déclaré leur âge est inférieur au nombre global des fermes de recensement; on comptait 732,832 de ces exploitations en 1941 et 623,091 en 1951.

^b In the 1971 Census, a hired manager was asked to report whether the land operated by him was owned or rented by his employer. This was a change from previous censuses wherein a farm operated by a hired manager was classified as being managed rather than owned or rented. Dans le recensement de 1971, les gérants ont été demandés si la terre qu'ils gèrent était possédée ou louée par son employeur. Ce fait constitue la différence entre le recensement de 1971 et les précédents car, auparavant, une ferme gérée par un gérant était classifiée "gérant" au lieu de "propriétaire" ou "locataire".

^a Comprend les données du Yukon et des Territoires du Nord-Ouest.

Note: In the 1971 Census, a hired manager was asked to report whether the land operated by him was owned or rented by his employer. This was a change from previous censuses wherein a farm operated by a hired manager was classified as being managed rather than owned or rented.

Note: Dans le recensement de 1971, les gérants ont été demandés si la terre qu'ils géraient était possédée ou louée par son employeur. Ce fait constitue la différence entre le recensement de 1971 et les précédents car, auparavant, une ferme gérée par un gérant était classifiée "gérant" au lieu de "propriétaire" ou "locataire".

^aFrom 1951, includes data for Yukon and Northwest Territories.

^a Comprend depuis 1951, les données du Yukon et des Territoires du Nord-Ouest.

^bFigures for 1956 are not available. Pick-up hay baler, and forage crop harvested, commenced in 1961, milking machine in 1951.

Figures for 1950 are not available. Pick-up hay baler, and forage crop harvester, commenced in 1951, making 1950 figures non disponibles pour 1956. On ne possède des chiffres sur les presses-ramasseuses à foin et les moissonneuses de plantes fourragères que depuis 1951; sur les trayeuses mécaniques, depuis 1951.

^aFigures for 1956 not available.

^aLes chiffres pour 1956 ne sont pas disponibles.

^bComponents do not necessarily sum to totals because of roundings.

^bL'addition des éléments constitutants ne donne pas nécessairement les mêmes taux parce que l'on a arrondi les chiffres.

^cAutomobiles and motor trucks are included in this category.

^cLes automobiles et les camions entrent dans cette catégorie.

^dFrom 1967 figures for livestock and poultry, includes value of animals on fur farms; calculated from the Quarterly Bulletin of Agricultural Statistics, Cat. No. 21-003, April to June 1975, Statistics Canada.

^dA partir de 1967, les chiffres pour bétail et volaille comprennent la valeur des animaux dans les fermes d'animaux à fourrure: extraits du Bulletin trimestriel de la statistique agricole, no. de catalogue 21-003, avril à juin 1975, Statistique Canada.

^eIncludes Newfoundland, and the Yukon and Northwest Territories.

^eComprend Terre-Neuve, le Yukon et les Territoires du Nord-Ouest.

^fExcludes Newfoundland, and the Yukon and Northwest Territories.

^fNe comprend pas Terre-Neuve, le Yukon et les Territoires du Nord-Ouest.

^gExcludes Newfoundland.

^gNe comprend pas Terre-Neuve.

TABLE 33 - ACREAGE OF PRINCIPAL FIELD CROPS, CANADA^a, PROVINCES, AND REGIONS, SELECTED YEARS, 1935 TO 1974 (thousand acres) (concluded)
TABLEAU 33 - SUPERFICIES DES PRINCIPALES GRANDES CULTURES, CANADA^a, PAR PROVINCE ET REGION, ANNEES CHOISIES DE 1935 A 1974 (milliers d'acres) (fin)

^a Excludes Newfoundland.

^a Ne comprend pas Terre-Neuve.

^b Components do not necessarily sum to totals because of roundings.

^b L'addition des éléments constituants ne donnera pas nécessairement la même somme que le total indiqué parce que l'on a arrondi les chiffres.

^a Average 1935-39 live weights. Average annual price of Grade A hogs, dressed weight, at Toronto, excluding premiums. Effective 1969 Grade A hogs, replaced by Index 100.

^a Moyenne, poids vif, 1935 à 1939. Prix moyen pour des carcasses habillées de porc de la catégorie A, à Toronto, primes non comprises. Depuis 1969, la catégorie A pour les porcs a été remplacée par l'indice 100.

^b Average annual price of Choice slaughter steers, live weight, at Toronto. The average price for the average 1935-39 is the simple average of the price for steers over 1,050 pounds and the price for steers under 1,050 pounds. The average annual price from 1949 to 1957 is the simple average of the price for steers over 1,000 pounds and the price for steers under 1,000 pounds. From 1958 to 1974, the prices are weighted average for all weights of steers.

^b Prix annuel moyen, poids vif, des bouvillons d'abattage classés de choix à Toronto. Le prix moyen ayant déterminé la moyenne de 1935 à 1939 est la moyenne du prix des bouvillons de plus de 1,050 livres et du prix de ceux de moins de 1,050 livres. Le prix annuel moyen de la période 1949 à 1957 est la moyenne du prix des bouvillons de plus de 1,000 livres et du prix de ceux de moins de 1,000 livres. De 1958 à 1974, les prix sont des moyennes pondérées pour les bouvillons de tous poids.

SECTION 6 - DEPENSES AGRICOLES - TABLEAUX 41 - 46

SECTION 7 - FARM INCOME - TABLES 47 - 50
SECTION 7 - REVENUS AGRICOLES - TABLEAUX 47 - 50

Farm Income
Revenu agricole

Farm Cash Receipts

Farm cash receipts include all cash receipts from the sales of farm products including Canadian Wheat Board participation payments on previous years' grain crops, net cash advances on farm-stored grain in Western Canada and deficiency payments made by the Agricultural Stabilization Board.

Recettes agricoles en espèces

Les recettes agricoles en espèces comprennent toutes les recettes des ventes de produits agricoles, y compris les versements de la Commission canadienne du blé pour les récoltes de céréales de l'année précédente, les avances monétaires nettes sur les céréales entreposées, à la ferme dans l'ouest du Canada et les paiements d'appoint de la Commission de stabilisation des prix agricoles.

Net Income

Net income is the sum of farm cash receipts from the sales of farm products, income in kind and federal government supplementary payments, less operating expenses and depreciation charges. It is adjusted for inventory changes.

Revenu net

Le revenu net constitue la somme des recettes agricoles en espèces provenant de la vente de produits agricoles, des revenus en nature et des paiements supplémentaires du gouvernement fédéral, moins les dépenses d'exploitation et d'amortissement. Ce chiffre tient compte des variations d'inventaire.

Income in Kind

This item represents the value of farm consumption of home-grown foodstuffs, wool and forest products plus an imputed rental value for the farm dwellings. The farm products consumed on the farm are valued at the price the farmer would have received had they been sold.

Revenu en nature

Ce revenu représente la valeur des denrées alimentaires de la laine et des produits forestiers produits et consommés à la ferme, auxquels s'ajoute le fermage calculé des produits agricoles consommés à la ferme sont évalués au prix auquel l'agriculteur aurait pu les vendre.

Supplementary Payments

These include payments made under the provisions of the Prairie Farm Assistance Act, the Western Grain Producers' Acreage Payment Plan, the Prairie Farm Income Plan, the Wheat Acreage Reduction Program, and payments made to Prince Edward Island potato growers in connection with losses as a result of fusarium rot in the 1960 potato crop.

Paiements supplémentaires

Ils comprennent les paiements effectués en vertu de la Loi sur l'assistance à l'agriculture des Prairies, du Programme de paiement des emblavures aux producteurs de l'Ouest, du Programme de stabilisation des revenus agricoles des Prairies, du Programme de réduction des cultures du blé, et, les versements effectués aux producteurs de pommes de terre de l'Île du Prince-Edouard, pour les pertes causées par la pourriture fusarienne sur la récolte de 1960.

Farm Expenses

These include the outlays made by farmers for the operation of the farm business regardless of whether they are paid for in cash or accumulated as new debt. Expenditures for goods and services obtained from other farmers are excluded. All subsidy payments are taken into account so that the estimates of expenditure represent only the net amounts paid by farmers.

Dépenses agricoles

Ce sont les frais d'exploitation de l'agriculteur qui peuvent être, soit des paiements en espèces, soit l'accumulation d'une dette, à l'exclusion des débours effectués pour des marchandises ou des services obtenus d'un autre agriculteur. Ce chiffre tient compte de toutes les subventions de sorte que l'estimation des dépenses ne représente que le montant net déboursé par les agriculteurs.

^a Cash receipts from the sale of farm products plus federal government supplementary payments.

^a Recettes en espèces obtenues par la vente des produits agricoles plus les paiements d'appoint du gouvernement fédéral.

^b Excludes Newfoundland.

^b Ne comprend pas Terre-Neuve.

^c Components do not necessarily sum to totals because of roundings.

^c L'addition des éléments constituants ne donne pas nécessairement la même somme que le total indiqué parce que l'on a arrondi les chiffres.

TABLE 40 - TOTAL FARM CASH RECEIPTS FROM THE SALE OF FARM PRODUCTS BY MAJOR COMMODITY GROUPINGS, CANADA^a, PROVINCES, AND REGIONS, SELECTED YEARS, 1935 TO 1974 (million dollars) (concluded)
TABLEAU 40 - TOTAL DES RECETTES AGRICOLES EN ESPECES OBTENUES PAR LA VENTE DES PRODUITS AGRICOLES PAR GROUPE DE DENREES PRINCIPALES, CANADA^a, PAR PROVINCE ET REGION, ANNEES CHOISIES DE 1935 A 1974 (millions de dollars) (fin)

- a. Excludes Newfoundland.
a. Ne comprend pas Terre-Neuve.
- b. Includes Canadian Wheat Board payments and net cash advances payments made under the provisions of the Prairie Grain Advance Payments Act, in 1957.
b. Les paiements et les avances en espèces nettes, faites par la Commission canadienne du blé sous le régime de la Loi sur les paiements anticipés pour le grain des Prairies, en 1957, sont compris sous le titre "Toutes autres recettes".
- c. Includes Flaxseed, rapeseed, and soybeans.
c. Comprend le lin, le colza et le soja.
- d. Includes corn, sugar beets, potatoes, fruits, vegetables, tobacco and other crops.
d. Comprend le maïs, les betteraves à sucre, les pommes de terre, les fruits, les légumes, le tabac et autres récoltes.
- e. Rye, sheep and lambs, other livestock and products, forest and maple products, and supplementary payments.
e. Seigle, moutons et agneaux, autres bétail et produits, produits forestiers et de l'étable, ainsi que paiements supplémentaires.
- f. Components do not necessarily sum to totals because of roundings.
f. L'addition des éléments constitutifs ne donne pas nécessairement la même somme que le total indiqué parce que l'on a arrondi les chiffres.

SECTION 8 - FOOD CONSUMPTION AND RELATED DATA - TABLES 51 - 57

SECTION 8 - CONSOMMATION ALIMENTAIRE ET DONNEES CORRESPONDANTES - TABLEAUX 51-57

Food Consumption
Consommation alimentaire

Apparent per capita food consumption is calculated by dividing the amount of food available for domestic consumption by the total population.

La consommation apparente par habitant se calcule en divisant la quantité d'aliments disponibles à la consommation intérieure par le chiffre de la population totale.

To arrive at the amount of food available for domestic consumption, annual balance sheets are prepared showing supplies and disposition of each food. The supply of a commodity is determined by adjusting production figures to take into account exports, imports, changes that take place in processing, inventory changes and losses due to wastage and shrinkage. Deductions are also made for non-food uses.

On calcule la totalité des aliments disponibles à la consommation intérieure au moyen de bilans annuels indiquant les disponibilités et l'utilisation de chaque aliment. La disponibilité d'une denrée se détermine en rectifiant les chiffres de production, compte tenu des exportations, des importations, des changements survenant en cours de transformation, des fluctuations des stocks et des pertes provenant des rebuts et des pertes de volume. On fait aussi des déductions pour les produits utilisés à d'autres fins qu'à l'alimentation.

This method only estimates the supply of food available to be consumed not the actual consumption, therefore, it is called apparent per capita consumption.

Le procédé ne permet que d'estimer les disponibilités en aliments consommables et non la consommation réelle, c'est pourquoi on l'appelle consommation apparente par habitant.

a Preliminary.
a Provisoire.

b From 1969, fresh equivalent.
b Exprimés en frais depuis 1969.

c Includes butter, margarine, lard, shortening, salad and cooking oil
c Comprend beurre, margarine, saindoux, graisse alimentaire, huiles à salade et à cuisson.

d From 1969, excludes lard.

e From 1969, excludes lard.
e Ne comprend pas le saindoux depuis 1969.

f Negligible.
f Négligeable.

g Includes cream expressed as milk.
g Comprend la crème exprimée en lait.

h Part of this product is used for animal feeds.

i Une partie de ce produit est utilisée pour l'alimentation du bétail.

j Imported canned meats only not comparable to the previous years where domestic production was included.

k Inclus viande en conserve importée seulement.

^a From 1958 on this category excludes "Special Transactions Non Trade". This change was made to correspond with changes in classification made by Statistics Canada.

^a Depuis 1958, cette catégorie ne comprend plus les "Transactions spéciales non commerciales". Cette rectification a été faite pour correspondre aux changements de classification décidés par Statistique Canada.

^b From 1949 to 1958, seed wheat and seed oats are included in this category. From 1959 seed wheat and seed oats are excluded.

^b De 1949 à 1958, les semences de blé et d'avoine entraient dans cette catégorie. Depuis 1959, les semences de blé et d'avoine en sont exclues.

^c From 1949 to 1960, this category includes millfeeds and fodder only. From 1961, the category is called "Animal feeds of vegetable or animal origin".

^c De 1949 à 1960, cette catégorie comprend seulement les issues de mouture et les fourrages. Depuis 1961, cette catégorie s'appelle "Aliments du bétail d'origines animaleet végétale".

^d Includes 62,635,000 pounds of butter valued at \$31,446,000, 1973; 53,765,800 pounds of butter valued at \$31,237,000, 1974.

^d Comprend 62,635,000 livres de beurre d'une valeur de \$31,440,000, 1973; 53,765,800 livres de beurre d'une valeur de \$31,237,000 1974.

^e Excludes potatoes.

^e Ne comprend pas les pommes de terre.

^f Includes seed wheat and seed oats from 1959.

^f Comprend les semences de blé et d'avoine depuis 1959.

^g From 1949 to 1962, the category "Honey" includes honey and bees.

^g Depuis 1949 jusqu'en 1962, la catégorie "Miel" comprend le miel et les abeilles.

IN REPLY FROM READERS

"Selected Agricultural Statistics for Canada"

We invite you to express your opinions, suggestions and questions concerning this publication.

We believe that communication is a two-way process, and is most valuable when the reader is able to convey his opinion to the author and editor.

John J. McConnell

Would you help us by filling this in and returning it to the address below?

1. Was this publication useful to you? Yes _____ No _____

2. How do you think it could have been improved?

3. If you answered no to Question 1, Why?

4. In what particular field are you finding it most useful?

Thank you for your cooperation.

Please send this reply to:

John J. McConnell,
Chief, Communications Unit,
Economics Branch,
Agriculture Canada,
Room 337,
Sir John Carling Building,
Ottawa, Ontario,

EN REPONSE DES LECTEURS

"Données statistiques agricoles canadiennes"

Nous vous invitons à exprimer vos opinions, suggestions et questions au sujet de cette publication.

Nous croyons que la communication est utile surtout quand il y a un dialogue entre le lecteur et l'auteur, et non seulement le monologue du dernier.

John J. McConnell

Auriez l'obligeance de remplir ce questionnaire et le retourner à l'adresse ci-joint?

1. La publication est-elle utile? Oui _____ Non _____
2. De quelle façon cette publication pourrait-elle être améliorée?
3. Si vous avez répondu non à la première question, dites pourquoi?
4. Dans quelle spécialité cette publication vous est-elle la plus utile?

Nous vous remercions de votre aide et coopération.

Envoyez votre réponse à:

FOREWORD

The purpose of this annual handbook is to provide a handy statistical reference on Canadian agriculture for a large general audience. Most of the data is drawn from Statistics Canada publications.

Data for census years 1941, 1951, 1956, 1961, 1966 and 1971 are included in order that there be an historical perspective.

For non-census data, in addition to 1951, 1956, 1961 and 1966, the period 1935-39, the year 1949 and the years 1967 to 1975 inclusive are provided. The 1935-39 period extends the historical perspective for non-census data to the immediate pre-war period. In this respect it is similar to and replaces the year 1941 in the census data. The year 1949 is included because it is one of the important statistical base periods in the immediate post-war years.

For further information, reference should be made to the source publications listed at the bottom of each table.

Readers are invited to comment on this publication and a questionnaire is provided for this purpose.

John J. McConnell
Chief, Communications Unit
Economics Branch
Agriculture Canada

AVANT-PROPOS

Ce texte est publié annuellement afin de rendre disponibles toutes les importantes statistiques agricoles canadiennes à une grande variété de lecteurs. La plupart des données sont tirées de publications de Statistique Canada.

Les données des années de recensement 1941, 1951, 1956, 1961, 1966 et 1971 sont incluses afin que le lecteur puisse avoir une perspective historique.

Les données hors-recensement de la période 1935 à 1939, de 1949 et des années 1967 à 1975 sont présentées. La période 1935 à 1939 donne une perspective historique des années qui ont précédé la guerre. Dans ce sens elle est semblable à et remplace 1941 dans les données de recensement. L'année 1949 est inscrite à cause de son importance comme base statistique dans les années d'après guerre.

Pour de plus amples détails, consultez les sources citées au bas des tableaux.

Les lecteurs sont invités à exprimer leurs opinions sur cette publication et un questionnaire est mis à leur disposition à la dernière page.

John J. McConnell

Population

The "Farm " population comprises all persons living on a census farm, regardless of their occupation. The same definition applied to all censuses, 1951, 1956, 1961, 1966 and 1971.

Definition of a Farm

In the 1941 census a farm was defined as all the land located in one municipality or census subdivision which was directly farmed by one person conducting agricultural operations either by his own labor or with the assistance of members of his household or with hired help. A farm could consist of a single tract of land or a number of separate tracts held under the same or different tenures so long as the total area was one acre or more in extent and had agricultural production in 1940 valued at \$50 or more. For purposes of the 1951 census, a farm was defined to be three acres or more in size or one to three acres in size with agricultural production in 1950 of a value of \$250 or more. Where a farm consisted of a number of parts all of which were not situated in the same municipality the census reported the complete farm as one unit in the municipality where the headquarters were located. In the 1961, 1966 and 1971 censuses, a farm was defined as an agricultural holding of one acre or more with sales of agricultural products during the previous 12 months of \$50 or more.

The number of farms in Canada was 732,858 in 1941, according to the then prevailing census definition of a farm; this number would come down to 677,500 if the 1951 definition had been used. In 1961 the number of farms was 480,903 on the basis of the 1961 census definition; had the 1951 definition been used, this figure would have been increased by 40,731. In 1966, the number of farms totalled 430,522. Farms, for census purposes, obviously include some units that do not correspond to what is commonly considered to be a farm. In 1971, the number of farms totalled 366,128.

Population

La population "agricole" comprend toutes les personnes habitant une ferme de recensement, peu importe leur occupation. La même définition s'est appliquée à tous les recensements (1951, 1956, 1961 1966 et 1971).

Définition de "ferme"

Dans le recensement de 1941, on entend par ferme la totalité des terres situées dans une municipalité ou une subdivision de recensement qui sont directement exploitées par une personne qui se livre à des spéculations agricoles, soit seul soit avec l'aide des membres de sa famille ou d'employés salariés. Une ferme peut être d'un seul tenant ou comporter un certain nombre de parcelles distinctes relevant d'un même régime foncier ou de régimes différents, pour autant que la superficie totale soit d'une acre ou plus et que la valeur de la production agricole soit au moins de \$50 (valeur de 1940). Le recensement de 1951 entend par ferme toute exploitation de trois acres ou plus d'une acre à trois acres dont la valeur de production en 1950 était d'au moins \$250 ou plus. Dans le cas d'une ferme se composant d'un certain nombre de parties non situées en totalité dans la même municipalité du domicile principal de l'agriculteur. Aux recensements de 1961, 1966 et 1971, on définissait la ferme de la façon suivante: propriété agricole d'une acre ou plus dont les ventes de produits agricoles dans les 12 mois précédents ont rapporté au moins \$50.

Il y avait 732,858 fermes au Canada en 1941, au sens du recensement appliqué à l'époque; ce nombre serait passé à 677,500 si l'on avait appliqué la définition de 1951. En 1961, il était de 480,903, suivant la définition établie pour cette année; selon les normes de 1951, il aurait compté 40,731 fermes de plus. En 1966, le nombre de fermes s'élevait à 430,522. Il est bien évident, que les fermes, au sens du recensement, comprennent des unités qui ne correspondent pas à ce que l'on entend normalement comme ferme. En 1971, on a relevé 366,128 fermes.

TABLE 3 - AREA AND USE OF OCCUPIED FARM LAND, CANADA, PROVINCES, AND REGIONS, CENSUS YEARS, 1941 TO 1971^a (thousand acres) - concluded
TABLEAU 3 - SUPERFICIE ET UTILISATION DES TERRES AGRICOLES OCCUPEES, CANADA, PAR PROVINCE ET REGION, ANNEES DE RECENSEMENT 1941 A 1971^a (milliers d'acres) - fin

^aFigures not necessarily comparable between census years due to changes in the definition of a "census farm".

^zLes chiffres ne se comparent pas nécessairement d'une année à l'autre en raison du changement apporté à la définition de l'expression "Fermes de recensement".

^bComponents will not necessarily sum to totals because of roundings.

^hL'addition des groupes ne donnera pas nécessairement la même somme que le total indiqué parce que l'on a arrondi les chiffres.

^c"Improved Land" includes a category enumerated as "other improved land" as well as "Crops" "Fallow" and "Pasture". "Other improved land" includes the area of barnyards, home gardens, lanes and roads on farms, new breaking and improved land lying idle.

^jLes "terres défrichées" comprennent une catégorie désignée sous le nom de "autres terres défrichées" aussi bien que les terres en culture, en jachère et en pâturage. Les "autres terres défrichées" comprennent les cours, les jardins potagers, les entrées et chemins de ferme, ainsi que les terres nouvellement défrichées et les terres défrichées non utilisées.

^dIncludes fields, vegetables, fruit and nursery crop land.

^dComprend la terre à grandes cultures, à légumes, à fruits et à pépinières.

^eIncludes data for Newfoundland and the Yukon and Northwest Territories, from 1951.

Comprend aussi les données pour Terre-Neuve, le Yukon et les Territoires du Nord-Ouest à partir de 1951.

TABLE 4 - AREA AND USE OF OCCUPIED FARM LAND, PERCENTAGE DISTRIBUTION, CANADA, PROVINCES, AND REGIONS, CENSUS YEARS, 1941 TO 1971^a (percent) - concluded
TABLEAU 4 - SUPERFICIE ET UTILISATION DES TERRES AGRICOLES OCCUPEES, REPARTITION EN POURCENTAGE, CANADA, PAR PROVINCE ET PAR REGION, ANNEES DE RECENSEMENT 1941 A 1971^a (pourcentage)
fin

^a Figures not necessarily comparable between census years due to changes in the definition of a "census farm".

^a Les chiffres ne se comparent pas nécessairement d'une année à l'autre en raison du changement apporté à la définition de l'expression "Fermes de recensement".

^b Components will not necessarily sum to totals because of roundings.

^b L'addition des groupes ne donnera pas nécessairement la même somme que le total indiqué parce que l'on a arrondi les chiffres.

^c "Improved Land" includes a category enumerated as "other improved land" as well as "Crops", "Fallow" and "Pasture". "Other improved land" includes the area of barnyards, home gardens, lanes and roads on farms, new breaking and improved land lying idle.

^c Les "terres défrichées" comprennent une catégorie désignée sous le nom de "autres terres défrichées", aussi bien que les terres en culture, en jachère et en pâturage. Les "autres terres défrichées" comprennent les cours, les jardins potagers, les entrées et chemins de ferme, ainsi que les terres nouvellement défrichées et les terres défrichées non utilisées.

^d Includes field, vegetable, fruit and nursery crop land.

^d Comprend la terre à grandes cultures, à légumes, à fruits et à pépinières.

^e Includes data for Newfoundland and the Yukon and Northwest Territories, from 1951.

^e Comprend aussi les données pour Terre-Neuve, le Yukon et les Territoires du Nord-Ouest à partir de 1951.

^aComprend les données du Yukon et des Territoires du Nord-Ouest.

^bFigures for 1956 not available.

^bLes chiffres pour 1956 ne sont pas disponibles.

^cThe figures for the total number of operators reporting age is the same as the number of census farms for 1961, 1966 and 1971. For the two other censuses not all operators reported their age, and subsequently the total number of operators reporting is lower than the total number of census farms, the latter were, 1941: 732,832; and 1951: 623,091 census farms.

^cLes chiffres du nombre global des exploitants ayant déclaré leur âge est le même que le nombre des fermes de recensement pour 1961, 1966 et 1971. Lors des deux autres recensements, tous les exploitants n'ont pas indiqué leur âge, de sorte que le nombre global des exploitants ayant déclaré leur âge est inférieur au nombre global des fermes de recensement; on comptait 732,832 de ces exploitations en 1941 et 623,091 en 1951.

^bIn the 1971 Census, a hired manager was asked to report whether the land operated by him was owned or rented by his employer. This was a change from previous censuses wherein a farm operated by a hired manager was classified as being managed rather than owned or rented. Dans le recensement de 1971, les gérants ont été demandés si la terre qu'ils gèrent était possédée ou louée par son employeur. Ce fait constitue la différence entre le recensement de 1971 et les précédents car, auparavant, une ferme gérée par un gérant était classifiée "gérant" au lieu de "propriétaire" ou "locataire".

^aIncludes data for Yukon and Northwest Territories.

^aComprend les données du Yukon et des Territoires du Nord-Ouest.

Note: In the 1971 Census, a hired manager was asked to report whether the land operated by him was owned or rented by his employer. This was a change from previous censuses wherein a farm operated by a hired manager was classified as being managed rather than owned or rented.

Note: Dans le recensement de 1971, les gérants ont été demandés si la terre qu'ils géraient était possédée ou louée par son employeur. Ce fait constitue la différence entre le recensement de 1971 et les précédents car, auparavant, une ferme gérée par un gérant était classifiée "gérant" au lieu de "propriétaire" ou "locataire".

^a Due to differences in definition, the number of farmers and stockraisers in these and the following tables on education are not the same as the number of farms in the census of agriculture.

^a En raison de différences dans la définition, le nombre des cultivateurs et des éleveurs de bétail dans les tableaux 13 et 14 de même que dans les suivants se rapportant à l'instruction, n'est pas le même que le nombre des fermes dans le recensement agricole.

a Figures for 1956 not available.

a Les chiffres de 1956 ne sont pas disponibles.

b Components do not necessarily sum to totals because of roundings.

b L'addition des éléments constitutants ne donne pas nécessairement les mêmes totaux parce qu'on a arrondi les chiffres.

c Automobiles and motor trucks are included in this category.

c Les automobiles et camions sont compris dans cette catégorie.

d From 1967 figures for livestock and poultry includes value of animals on fur farms: taken from the Quarterly Bulletin of Agricultural Statistics, Cat. No. 21-003, April to June 1976. Statistics Canada.

d A partir de 1967, les chiffres pour bétail et volaille comprennent la valeur des animaux dans les fermes d'élevage d'animaux à fourrure: extraits du Bulletin trimestriel de la statistique agricole, no de catalogue 21-003, avril à juin 1976. Statistique Canada.

e Includes Newfoundland, and the Yukon and Northwest Territories.

e Comprend Terre-Neuve, le Yukon et les Territoires du Nord-Ouest.

f Excludes Newfoundland, and the Yukon and Northwest Territories.

f Ne comprend pas Terre-Neuve, le Yukon et les Territoires du Nord-Ouest.

g Excludes Newfoundland.

g Ne comprend pas Terre-Neuve.

a Figures for 1956 not available.

a Les chiffres pour 1956 ne sont pas disponibles.

b Components do not necessarily sum to totals because of roundings.

b L'addition des éléments constitutants ne donne pas nécessairement les mêmes taux parce que l'on a arrondi les chiffres.

c Automobiles and motor trucks are included in this category.

c Les automobiles et les camions entrent dans cette catégorie.

d From 1967 figures for livestock and poultry, includes value of animals on fur farms: calculated from the Quarterly Bulletin of Agricultural Statistics, Cat. No. 21-033, April to June 1976. Statistics Canada.

d A partir de 1967, les chiffres pour bétail et volaille comprennent la valeur des animaux dans les fermes d'animaux à fourrure: extraits du Bulletin trimestriel de la statistique agricole, no de catalogue 21-003, avril à juin 1976, Statistique Canada.

e Includes Newfoundland, and the Yukon and Northwest Territories.

e Comprend Terre-Neuve, le Yukon et les Territoires du Nord-Ouest.

f Excludes Newfoundland, and the Yukon and Northwest Territories.

f Ne comprend pas Terre-Neuve, le Yukon et les Territoires du Nord-Ouest.

g Excludes Newfoundland.

g Ne comprend pas Terre-Neuve.

TABLE 33 - ACREAGE OF PRINCIPAL FIELD CROPS, CANADA^a, PROVINCES, AND REGIONS, SELECTED YEARS, 1935 TO 1975 (thousand acres) (concluded)
TABLEAU 33 - SUPERFICIES DES PRINCIPALES GRANDES CULTURES, CANADA^a, PAR PROVINCE ET REGION, ANNÉES CHOISIES DE 1935 À 1975 (milliers d'acres) (fin)

a Excludes Newfoundland.

a Ne comprend pas Terre-Neuve.

b Components do not necessarily sum to totals because of roundings.

b L'addition des éléments constituants ne donnera pas nécessairement la même somme que le total indiqué parce que l'on a arrondi les chiffres.

a Average 1935-39 live weights. Average annual price of Grade A hogs, dressed weight, at Toronto, excluding premiums. Effective 1969 Grade A hogs, replaced by Index 100.

a *Moyenne, poids vif, 1935 à 1939. Prix moyen pour des carcasses habillées de porc de la catégorie A, à Toronto, primes non comprises. Depuis 1969, la catégorie A pour les porcs a été remplacée par l'indice 100.*

b Average annual price of Choice slaughter steers, live weight, at Toronto. The average price for the average 1935-39 is the simple average of the price for steers over 1,050 pounds and the price for steers under 1,050 pounds. The average annual price from 1949 to 1957 is the simple average of the price for steers over 1,000 pounds and the price for steers under 1,000 pounds. From 1958 to 1975, the prices are weighted average for all weights of steers.

b *Prix annuel moyen, poids vif, des bouvillons d'abattage classés de choix à Toronto. Le prix moyen ayant déterminé la moyenne de 1935 à 1939 est la moyenne du prix des bouvillons de plus de 1,050 livres et du prix de ceux de moins de 1,050 livres. Le prix annuel moyen de la période 1949 à 1957 est la moyenne du prix des bouvillons de plus de 1,000 livres et du prix de ceux de moins de 1,000 livres. De 1958 à 1975, les prix sont des moyennes pondérées pour les bouvillons de tous poids.*

SECTION 6 - FARM EXPENSES - TABLES 41 - 46
SECTION 6 - DEPENSES AGRICOLES - TABLEAUX 41 - 46

SECTION 7 - FARM INCOME - TABLES 47 - 50
SECTION 7 - REVENUS AGRICOLES - TABLEAUX 47 - 50

Farm Income
Revenu agricole

Farm Cash Receipts

Farm cash receipts include all cash receipts from the sales of farm products including Canadian Wheat Board participation payments on previous years' grain crops, net cash advances on farm-stored grain in Western Canada and deficiency payments made by the Agricultural Stabilization Board.

Recettes agricoles en espèces

Les recettes agricoles en espèces comprennent toutes les recettes des ventes de produits agricoles, y compris les versements de la Commission canadienne du blé pour les récoltes de céréales de l'année précédente, les avances monétaires nettes sur les céréales entreposées, à la ferme dans l'Ouest du Canada et les paiements d'appoint de la Commission de stabilisation des prix agricoles.

Net Income

Net income is the sum of farm cash receipts from the sales of farm products, income in kind and federal government supplementary payments, less operating expenses and depreciation charges. It is adjusted for inventory changes.

Revenu net

Le revenu net constitue la somme des recettes agricoles en espèces provenant de la vente de produits agricoles, des revenus en nature et des paiements supplémentaires du gouvernement fédéral, moins les dépenses d'exploitation et d'amortissement. Ce chiffre tient compte des variations d'inventaire.

Income in Kind

This item represents the value of farm consumption of home-grown foodstuffs, wool and forest products plus an imputed rental value for the farm dwellings. The farm products consumed on the farm are valued at the price the farmer would have received had they been sold.

Revenu en nature

Ce revenu représente la valeur des denrées alimentaires de la laine et des produits forestiers produits et consommés à la ferme, auxquels s'ajoute le fermage calculé des produits agricoles consommés à la ferme sont évalués au prix auquel l'agriculteur aurait pu les vendre.

Supplementary Payments

These include payments made under the provisions of the Prairie Farm Assistance Act, the Western Grain Producers' Acreage Payment Plan, the Prairie Farm Income Plan, the Wheat Acreage Reduction Program, and payments made to Prince Edward Island potato growers in connection with losses as a result of fusarium rot in the 1960 potato crop.

Paiements supplémentaires

Ils comprennent les paiements effectués en vertu de la Loi sur l'assistance à l'agriculture des Prairies, du Programme de paiement des emblavures aux producteurs de l'Ouest, du Programme de stabilisation des revenus agricoles des Prairies, du Programme de réduction des cultures du blé, et, les versements effectués aux producteurs de pommes de terre de l'Île du Prince-Edouard, pour les pertes causées par la pourriture fusarienne sur la récolte de 1960.

Farm Expenses

These include the outlays made by farmers for the operation of the farm business regardless of whether they are paid for in cash or accumulated as new debt. Expenditures for goods and services obtained from other farmers are excluded. All subsidy payments are taken into account so that the estimates of expenditure represent only the net amounts paid by farmers.

Dépenses agricoles

Ce sont les frais d'exploitation de l'agriculteur qui peuvent être, soit des paiements en espèces, soit l'accumulation d'une dette, à l'exclusion des débours effectués pour des marchandises ou des services obtenus d'un autre agriculteur. Ce chiffre tient compte de toutes les subventions de sorte que l'estimation des dépenses ne représente que le montant net déboursé par les agriculteurs.

a Cash receipts from the sale of farm products plus federal government supplementary payments.

a cash receipts from the sale of farm products plus Federal government supplementary payments, and a Recettes en espèces obtenues par la vente des produits agricoles plus les paiements d'appoint du gouvernement fédéral.

b Excludes Newfoundland.

b Ne comprend pas Terre-Neuve.

c Components do not necessarily sum to totals because of roundings.

c L'addition des éléments constitutants ne donne pas nécessairement la même somme que le total indiqué parce que l'on a arrondi les chiffres.

d Preliminary.

d Provisoire.

TABLE 40 - TOTAL FARM CASH RECEIPTS FROM THE SALE OF FARM PRODUCTS BY MAJOR COMMODITY GROUPINGS, CANADA^a, PROVINCES, AND REGIONS, SELECTED YEARS 1935 TO 1975 (million dollars) (concluded)

TABLEAU 40 - TOTAL DES RECETTES AGRICOLES EN ESPECES OBTENUES PAR LA VENTE DES PRODUITS AGRICOLES PAR GROUPE DE DENREES PRINCIPALES, CANADA^a, PAR PROVINCE ET REGION, ANNEES CHOISIES DE 1935 A 1975 (millions de dollars) (fin)

- a Excludes Newfoundland
- a Ne comprend pas Terre-Neuve.
- b Includes Canadian Wheat Board payments and net cash advances payments made under the provisions of the Prairie Grain Advance Payments Act, in 1957.
- b Les paiements et les avances en espèces nettes, faites par la Commission canadienne du blé sous le régime de la Loi sur les paiements anticipés pour le grain des Prairies, en 1957, sont compris sous le titre "Toutes autres recettes".
- c Includes flaxseed, rapeseed, and soybeans.
- c Comprend le lin, le colza et le soja.
- d Includes corn, sugar beets, potatoes, fruits, vegetables, tobacco and other crops.
- d Comprend le maïs, les betteraves à sucre, les pommes de terre, les fruits, les légumes, le tabac et autres récoltes.
- e Rye, sheep and lambs, other livestock and products, forest and maple products, and supplementary payments.
- e Seigle, moutons et agneaux, autres bestiaux et produits, produits forestiers et de l'éérable, ainsi que paiements supplémentaires.
- f Components do not necessarily sum to totals because of roundings.
- f L'addition des éléments constituants ne donne pas nécessairement la même somme que le total indiqué parce que l'on a arrondi les chiffres.
- g Preliminary.
- g Prévisoire.

TABLEAU 42 - TOTAL DES DEPENSES D'EXPLOITATION AGRICOLE, CANADA^a, PAR PROVINCE ET REGION, ANNEES CHOISIES DE 1935 A 1975 (millions de dollars) (fin)

- a Excludes Newfoundland.
a Ne comprend pas Terre-Neuve.
- b Owned land and buildings only.
b Terres et bâtiments possédés seulement.
- c Mortgage payments on owned land and buildings, together with interest payments on all other farm business debt.
c L'intérêt sur les hypothèques des terres et bâtiments possédés ainsi que l'intérêt sur toutes les autres dettes agricoles.
- d For the farm business.
d Pour la ferme.
- e Tires, anti-freeze, licenses, insurance, etc.
e Pneus, antigel, plaques d'immatriculation, assurances, etc.
- f Pesticides, nursery stock, irrigation, containers, seed and twine.
f Insecticides, pépinières, irrigation, contenants, semences et ficelle.
- g Purchases through commercial channels only.
g Achats commerciaux seulement.
- h Livestock purchases, artificial insemination charges, purebred livestock registration fees and veterinary expenses.
h Achats de bétail, dépenses d'insemination artificielle, frais d'enregistrement des animaux de race et dépenses pour vétérinaire.
- i Fencing, custom work, insurance, and other supplies and services not previously specified.
i Clôture, travail spécial, assurances, autres fournitures et services non énumérés auparavant.
- j Included in miscellaneous. Components do not necessarily sum to totals because of roundings.
j Compris dans divers. L'addition des éléments constituants ne donne pas nécessairement la même somme que le total indiqué parce que l'on a arrondi les chiffres.

a From 1963 exclude stumpage.

a Ne comprend pas les droits de coupe à partir de 1963.

b From 1965 onward data for offshore activity and Hudson Bay activity are included in the total for Canada.

b A partir de 1965, les chiffres relatifs aux travaux effectués au large des côtes et dans la Baie d'Hudson sont compris dans le total pour le Canada.

c In the years 1968 to 1972, data relating to the production of "synthetic" crude oil have been exclude.

c De 1968 à 1972, les chiffres de la production de pétrole brut "synthétique" sont exclus.

ANNEES CHOISIES DE 1949 A 1974

Year	Customers	Kilowatt-Hours Sold	Kilowatt-Hours Per Customer
Année	Abonnés	Ventes de Kilowatt-heures	Kilowatt-Heures par abonné
	number nombre	thousand milliers	number nombre
1949	250,866	439,570	1,752
1951	336,345	701,131	2,085
1956	466,697	1,428,125	3,060
1961	497,994	2,317,672	4,654
1966	391,837	3,025,013	7,720
1967	390,269	3,336,016	8,548
1968	386,621	3,539,466	9,155
1969	384,304	3,859,369	10,042
1970 ^b	169,519	1,679,210	9,906
1971 ^b	169,930	1,870,265	11,006
1972 ^b	170,662	1,984,832	11,630
1973 ^b	170,780	2,070,815	12,126
1974 ^b	173,303	2,433,004	14,039

a Includes Newfoundland commencing in 1956.

a Comprend Terre-Neuve depuis 1956.

b Since distinction between farm and domestic is increasingly difficult to make, customers reported under farm service in Quebec and Ontario have been combined with domestic.

b La distinction entre les services agricole et domestique est difficile à faire, ainsi les abonnés au service agricole dans Québec et Ontario sont unis au service domestique.

SECTION 8 - FOOD DISAPPEARANCE AND RELATED DATA - TABLES 51 - 57
SECTION 8 - DISPARITION ALIMENTAIRE ET DONNEES CORRESPONDANTES - TABLEAUX 51 - 57

Food Disappearance
Disparition alimentaire

Apparent per capita domestic disappearance of food is calculated by dividing the amount of food by the total population.

La disparition intérieure apparente des aliments par personne se calcule en divisant la quantité d'aliments par le chiffre de la population totale.

To arrive at the amount of food available for domestic use, annual balance sheets are prepared showing supplies and disposition of each food. The supply of a commodity is determined by adjusting production figures to take into account exports, imports, changes that take place in processing, inventory changes and losses due to wastage and shrinkage. Deductions are also made for non-food uses.

On calcule la totalité des aliments disponibles à l'utilisation intérieure au moyen de bilans annuels indiquant les disponibilités et l'utilisation de chaque aliment. La disponibilité d'une denrée se détermine en rectifiant les chiffres de production, compte tenu des exportations, des importations, des changements survenant en cours de transformation, des fluctuations des stocks et des pertes provenant des rebuts et des pertes de volume. On fait aussi des déductions pour les produits utilisés à d'autres fins qu'à l'alimentation.

This method only estimates the supply of food available to be consumed not the actual consumption, therefore, it is called apparent per capita consumption.

Ce procédé ne permet que d'estimer les disponibilités en aliments consommables et non la consommation réelle, c'est pourquoi on l'appelle consommation apparente par habitant.

a Preliminary.

a Provisoire.

b From 1969, fresh equivalent.

b Exprimés en frais depuis 1969.

c Includes butter, margarine, lard, shortening, salad and cooking oil.

c Comprend beurre, margarine, saindoux, graisse alimentaire, huiles à salade et à cuisson.

d From 1969, excludes lard.

d Ne comprend pas le saindoux depuis 1969.

e Negligible.

e Négligeable.

f Includes cream expressed as milk.

f Comprend la crème exprimée en lait.

g Part of this product is used for animal feeds.

g Une partie de ce produit est utilisée pour l'alimentation du bétail.

h Imported canned meats only not comparable to the previous years where domestic production was included.

h Inclus viande en conserve importée seulement.

a From 1958 on this category excludes "Special Transactions Non Trade". This change was made to correspond with changes in classification made by Statistics Canada.

a A partir de 1958, cette catégorie ne comprend plus les "Transactions spéciales non commerciales". Cette rectification a été faite pour correspondre aux changements de classification décidés par Statistique Canada.

b From 1949 to 1958, seed wheat and seed oats are included in this category. From 1959, seed wheat and seed oats are excluded.

b De 1949 à 1958, les semences de blé et d'avoine entraient dans cette catégorie. Depuis 1959, les semences de blé et d'avoine en sont exclues.

c From 1949 to 1960, this category includes millfeeds and fodder only. From 1961 the category is called "Animal feeds of vegetable or animal origin".

c De 1949 à 1960, cette catégorie comprend seulement les issues de mouture et les fourrages. Depuis 1961, cette catégorie s'appelle "Aliments du bétail d'origines animale et végétale".

d Excludes potatoes.

d Ne comprend pas les pommes de terre.

e Includes seed wheat and seed oats from 1959.

e Comprend les semences de blé et d'avoine depuis 1959.

^a Commercial non-agricultural goods-producing industries include: forestry, fishing and trapping, mining, manufacturing, electric power and gas utilities, and construction.

^a Les industries non agricoles produisant des marchandises comprennent: exploitation forestière, pêches, piégeage, mines, industries de transformation, les services d'électricité et de gaz, la construction.

^b Commercial service-producing industries include: transportation, storage, communication, wholesale and retail trade, finance, insurance, and real estate, recreation, business and personal services. Services which are not generally established for the purpose of making financial gain are excluded: for example, public administration and defence, educational institutions and hospitals.

^b Les industries commerciales offrant des services comprennent: transports, communications, entreprises de gros et de détail, finance, assurances, immobilier, récréation, services d'affaires et personnels. Ne sont pas compris les services qui n'ont généralement pas de but lucratif, par exemple ceux de l'administration publique, de la défense, les institutions d'enseignement et les hôpitaux.

^c Commercial non-agricultural industries exclude such non-commercial industries as public administration and defence, educational institutions and hospitals.

^c Les industries commerciales non agricoles ne comprennent pas les industries non commerciales comme l'administration publique, la défense, les institutions d'enseignement et les hôpitaux.

FOREWORD

The purpose of this annual handbook is to provide a handy statistical reference on Canadian agriculture for a large general audience. Most of the data are drawn from Statistics Canada publications.

Data for census years 1941, 1951, 1956, 1961, 1966, 1971 and 1976 are included in order that there be an historical perspective.

For non-census data, in addition to 1951, 1956, 1961 and 1966, the period 1935-39, the year 1949 and the years 1967 to 1976 inclusive are provided. The 1935-39 period extends the historical perspective for non-census data to the immediate pre-war period. In this respect, it is similar to and replaces the year 1941 in the census data. The year 1949 is included because it is one of the important statistical base periods in the immediate post-war years.

For further information, reference should be made to the source publications listed at the bottom of each table.

Readers are invited to comment on this publication and a questionnaire is provided for this purpose.

John J. McConnell
Chief, Communications
Information Division
Agriculture Canada

AVANT-PROPOS

Ce texte est publié annuellement afin de rendre disponibles toutes les importantes statistiques agricoles canadiennes à une grande variété de lecteurs. La plupart des données sont tirées de publications de Statistique Canada.

Les données des années de recensement 1941, 1951, 1956, 1961, 1966, 1971 et 1976 sont incluses afin que le lecteur puisse avoir une perspective historique.

Les données hors-recensement de la période 1935 à 1939, de 1949 et des années 1967 à 1976 sont présentées. La période 1935 à 1939 donne une perspective historique des années qui ont précédé la guerre. Dans ce sens elle est semblable à et remplace 1941 dans les données de recensement. L'année 1949 est inscrite à cause de son importance comme base statistique dans les années d'après guerre.

Pour de plus amples détails, consultez les sources citées au bas des tableaux.

Les lecteurs sont invités à exprimer leurs opinions sur cette publication et un questionnaire est mis à leur disposition à la dernière page.

SECTION 1 - CENSUS DATA - TABLES 1 TO 32
SECTION 1 - DONNÉES DE RECENSEMENT - TABLEAUX 1 A 32

Population

The "Farm" population comprises all persons living on a census farm, regardless of their occupation. The same definition applied to all censuses, 1951, 1956, 1961, 1966 and 1971.

Definition of a Farm

In the 1941 census a farm was defined as all the land located in one municipality or census subdivision which was directly farmed by one person conducting agricultural operations either by his own labor or with the assistance of members of his household or with hired help. A farm could consist of a single tract of land or a number of separate tracts held under the same or different tenures so long as the total area was one acre or more in extent and had agricultural production in 1940 valued at \$50 or more. For purposes of the 1951 census, a farm was defined to be three acres or more in size or one to three acres in size with agricultural production in 1950 of a value of \$250 or more. Where a farm consisted of a number of parts all of which were not situated in the same municipality the census reported the complete farm as one unit in the municipality where the headquarters were located. In the 1961, 1966 and 1971 censuses, a farm was defined as an agricultural holding of one acre or more with sales of agricultural products during the previous 12 months of \$50 or more. In the 1976 census, a farm was defined as a ranch or other agricultural holdings of one acre or more with sales of agricultural products during the year 1975 of \$1,200 or more.

The number of farms in Canada was 732,858 in 1941, according to the then prevailing census definition of a farm; this number would come down to 677,500 if the 1951 definition had been used. In 1961 the number of farms was 480,903 on the basis of the 1961 census definition; had the 1951 definition been used, this figure would have been increased by 40,731. In 1966, the number of farms totaled 430,522. Farms, for census purposes, obviously include some units that do not correspond to what is commonly considered to be a farm. In 1971 and 1976, the number of farms totaled 366,128 and 338,578 respectively.

Population

La population "agricole" comprend toutes les personnes habitant une ferme de recensement, peu importe leur occupation. La même définition s'est appliquée à tous les recensements (1951, 1956, 1961, 1966 et 1971).

Definition de "ferme"

Dans le recensement de 1941, on entend par ferme la totalité des terres situées dans une municipalité ou une subdivision de recensement qui sont directement exploitées par une personne qui se livre à des spéculations agricoles, soit seul, soit avec l'aide des membres de sa famille ou d'employés salariés. Une ferme peut être d'un seul tenant ou comporter un certain nombre de parcelles distinctes relevant d'un même régime foncier ou de régimes différents, pour autant que la superficie totale soit d'une acre ou plus et que la valeur de la production agricole soit au moins de \$50 (valeur de 1940). Le recensement de 1951 entend par ferme toute exploitation de trois acres ou plus d'une acre à trois acres dont la valeur de production en 1950 était d'au moins \$250 ou plus. Dans le cas d'une ferme se composant d'un certain nombre de parties non situées en totalité dans la même municipalité le recensement déclare la ferme entière comme unité située dans la même municipalité que le domicile de l'exploitant." Aux recensements de 1961, 1966 et 1971, on définissait la ferme de la façon suivante: propriété agricole d'une acre ou plus dont les ventes de produits agricoles dans les 12 mois précédents ont rapporté au moins \$50. Dans le recensement de 1976, on définissait la ferme comme étant une ferme, un ranch ou toute exploitation agricole d'une acre ou plus dont les ventes de produits agricole en 1975 se sont élevées à \$1,200 ou plus.

Il y avait 732,858 fermes au Canada en 1941, au sens du recensement appliqué à l'époque; ce nombre serait passé à 677,500 si l'on avait appliqué la définition de 1951. En 1961, il était de 480,903, suivant la définition établie pour cette année; selon les normes de 1951, il aurait compté 40,731 fermes de plus. En 1966, le nombre de fermes s'élevait à 430,522. Il est bien évident que les "fermes", d'après la définition du recensement, comprennent des unités qui ne correspondent pas à ce que l'on entend normalement comme ferme. En 1971 et 1976, le nombre de fermes s'établissait respectivement à 366,128 et 338,578.

- a Figures not necessarily comparable between census years due to changes in the definition of a "census farm".
a Les chiffres ne se comparent pas nécessairement d'une année à l'autre en raison du changement apporté à la définition de l'expression "Fermes de recensement".
b Components will not necessarily sum to totals because of roundings.
b L'addition des groupes ne donnera pas nécessairement la même somme que le total indiqué parce que l'on a arrondi les chiffres.
c "Improved Land" includes a category enumerated as "other improved land" as well as "Crops" "Fallow" and "Pasture". "Other improved land" includes the area of barnyards, home gardens, lanes and roads on farms, new breaking and improved land lying idle.
c "Les terres défrichées" comprennent une catégorie désignée sous le nom de "autres terres défrichées" aussi bien que les terres en culture, en jachère et en pâturage. Les "autres terres défrichées" comprennent les cours, les jardins potagers, les entrées et chemins de ferme, ainsi que les terres nouvellement défrichées et les terres défrichées non utilisées.
d Includes fields, vegetables, fruit and nursery crop land.
d Comprend la terre à grandes cultures, à légumes, à fruits et à pépinières.
e Includes data for Newfoundland and the Yukon and Northwest Territories, from 1951.
e Comprend aussi les données pour Terre-Neuve, le Yukon et les Territoires du Nord-Ouest à partir de 1951.

^a Includes data for Yukon and Northwest Territories.

^b Comprend les données du Yukon et des Territoires du Nord-Ouest.

^c Figures for 1956 not available.

^d Les chiffres pour 1956 ne sont pas disponibles.

^e The figures for the total number of operators reporting age is the same as the number of census farms for 1961, 1966, 1971 and 1976. For the two other censuses not all operators reported their age, and subsequently the total number of operators reporting is lower than the total number of census farms; the former were, 1941: 732,832; and 1951: 623,091 census farms.

^f Le chiffre du nombre global des exploitants ayant déclaré leur âge est le même que le nombre des fermes de recensement pour 1961, 1966, 1971 et 1976. Lors des deux autres recensements, tous les exploitants n'ont pas indiqué leur âge, de sorte que le nombre global des exploitants ayant déclaré leur âge est inférieur au nombre global des fermes de recensement; on comptait 732,832 de ces exploitations en 1941 et 623,091 en 1951.

a Excludes data for Yukon and Northwest Territories.
a Ne comprend pas les données du Yukon et des Territoires du Nord-Ouest.

b In the 1971 and 1976 Censuses, a hired manager was asked to report whether the land operated by him was owned or rented by his employer. This was a change from previous censuses wherein a farm operated by a hired manager was classified as being managed rather than owned or rented.
b Dans les recensements de 1971 et 1976 les gérants ont été demandés si la terre qu'ils gèrent était possédée ou louée par son employeur. Ce fait constitue la différence entre les recensements de 1971 et 1976 et les précédents, car, auparavant, une ferme gérée par un gérant était classifiée "gérant" au lieu de "propriétaire" ou "locataire".

a Based on a 33 1/3 percent sample. As a result most totals and distributions of farm operator counts will differ from comparable counts of census farms.

a Échantillon de 33 1/3 %. Il s'ensuit que la plupart des totaux partiels et des distributions des chiffres concernant les exploitants agricoles diffèrent des chiffres comparables relatifs aux fermes de recensement.

b Includes data for Yukon and Northwest Territories.

b Comprend les données du Yukon et des Territoires du Nord-Ouest.

a Figures for 1956 not available.

a Les chiffres de 1956 ne sont pas disponibles.

b Components do not necessarily sum to totals because of roundings.

b L'addition des éléments constitutants ne donne pas nécessairement les mêmes totaux parce qu'on a arrondi les chiffres.

c Automobiles and motor trucks are included in this category.

c Les automobiles et camions sont compris dans cette catégorie.

d From 1967 figures for livestock and poultry includes value of animals on fur farms; taken from the Quarterly Bulletin of Agricultural Statistics, Cat. No. 21-003, April to June 1977.

d A partir de 1967, les chiffres pour bétail et volaille comprennent la valeur des animaux dans les fermes d'élevage d'animaux à fourrures; extraits du Bulletin trimestriel de la statistique agricole, no de catalogue 21-003, avril à juin 1977. Statistique Canada.

e Includes Newfoundland, and the Yukon and Northwest Territories.

e Comprend Terre-Neuve, le Yukon et les Territoires du Nord-Ouest.

f Excludes Newfoundland, and the Yukon and Northwest Territories.

f Ne comprend pas Terre-Neuve, le Yukon et les Territoires du Nord-Ouest.

g Excludes Newfoundland

g Ne comprend pas Terre-Neuve.

a Figures for 1956 not available.

a Les chiffres de 1956 ne sont pas disponibles.

b Automobiles and motor trucks are included in this category.

b Les automobiles et les camions entrent dans cette catégorie.

c From 1967 figures for livestock and poultry includes value of animals on fur farms; calculated from the Quarterly Bulletin of Agricultural Statistics, Cat. No. 21-003, April to June 1977. Statistics Canada.

c A partir de 1967, les chiffres pour bétail et volaille comprennent la valeur des animaux dans les fermes d'animaux à fourrure: extraits du Bulletin trimestriel de la statistique agricole, no de catalogue 21-003, avril à juin 1977, Statistique Canada.

d Includes Newfoundland, and the Yukon and Northwest Territories.

d Comprend Terre-Neuve, le Yukon et les Territoires du Nord-Ouest.

e Excludes Newfoundland, and the Yukon and Northwest Territories.

e Ne comprend pas Terre-Neuve, le Yukon et les Territoires du Nord-Ouest.

f Excludes Newfoundland.

f Ne comprend pas Terre-Neuve.

a Figures for 1956 not available.

a Les chiffres pour 1956 ne sont pas disponibles.

b Components do not necessarily sum to totals because of roundings.

b L'addition des éléments constitutants ne donne pas nécessairement les mêmes totaux parce que l'on a arrondi les chiffres.

c Automobiles and motor trucks are included in this category.

c Les automobiles et les camions entrent dans cette catégorie.

d From 1967 figures for livestock and poultry includes value of animals on fur farms: calculated from the Quarterly Bulletin of Agricultural Statistics, Cat. No. 21-003, April to June 1977. Statistics Canada.

d A partir de 1967, les chiffres pour bétail et volaille comprennent la valeur des animaux dans les fermes d'animaux à fourrure: extraits du Bulletin trimestriel de la statistique agricole, no de catalogue 21-003, avril à juin 1977, Statistique Canada.

e Includes Newfoundland, and the Yukon and Northwest Territories.

e Comprend Terre-Neuve, le Yukon et les Territoires du Nord-Ouest.

f Excludes Newfoundland, and the Yukon and Northwest Territories.

f Ne comprend pas Terre-Neuve, le Yukon et les Territoires du Nord-Ouest.

g Excludes Newfoundland.

g Ne comprend pas Terre-Neuve.

TABLE 37 - ACREAGE OF PRINCIPAL FIELD CROPS, CANADA^a, PROVINCES AND REGIONS, SELECTED YEARS, 1935 TO 1976 (thousand acres) (concluded)
TABLEAU 37 - SUPERFICIES DES PRINCIPALES GRANDES CULTURES, CANADA^a, PAR PROVINCE ET REGION, ANNEES CHOISIES DE 1935 A 1976 (milliers d'acres) (fin)

a Excludes Newfoundland

a Ne comprend pas Terre-Neuve.

b Components do not necessarily sum to totals because of roundings.

b L'addition des éléments constituants ne donnera pas nécessairement la même somme que le total indiqué parce que l'on a arrondi les chiffres.

TABLE 42 - PRICES OF SELECTED COMMODITIES, CANADA, SELECTED YEARS, 1935 TO 1976 (concluded)
TABLEAU 42 - PRIX DE CERTAINES DENREES, CANADA, ANNEES CHOISIES DE 1935 A 1976 (fin)

- a Average 1935-39 live weights. Average annual price of Grade A hogs, dressed weight, at Toronto, excluding premiums. Effective 1969 Grade A hogs, replaced by Index 100.
- a Moyenne, poids vif, 1935 à 1939. Prix moyen pour des carcasses habillées de porc de la catégorie A, à Toronto, primes non comprises. Depuis 1969, la catégorie A pour les porcs a été remplacée par l'indice 100.
- b Average annual price of Choice slaughter steers, live weights, at Toronto. The average price for the average 1935-39 is the simple average of the price for steers over 1,050 pounds and the price for steers under 1,050 pounds. The average annual price from 1949 to 1957 is the simple average of the price for steers over 1,000 pounds and the price for steers under 1,000 pounds. From 1958 to 1976, the prices are weighted averages for all weights of steers.
- b Prix annuel moyen, poids vif, des bouvillons d'abattage classés de choix à Toronto. Le prix moyen ayant déterminé la moyenne de 1935 à 1939 est la moyenne du prix des bouvillons de plus de 1,050 livres et du prix de ceux de moins de 1,050 livres. Le prix annuel moyen de la période 1949 à 1957 est la moyenne du prix des bouvillons de plus de 1,000 livres et du prix de ceux de moins de 1,000 livres. De 1958 à 1976, les prix sont des moyennes pondérées pour les bouvillons de tous poids.
- c Average annual price to producers of Grade A chicken, live weight, at Toronto. From 1949 to 1956, the prices refer to chickens weighing less than three pounds; from 1957 to 1963 chickens weighing less than four pounds; from 1964 to 1976 chickens less than five pounds.
- c Prix annuel moyen à la production des poulets de la catégorie A (poids vif) à Toronto. De 1949 à 1956, les prix se rapportent aux poulets pesant moins de 3 livres, de 1957 à 1963, aux poulets pesant moins de 4 livres; de 1964 à 1976 aux poulets pesant moins de 5 livres.
- d Average annual price to producers for all grades at registered grading stations in Canada, weighted by grade for each province.
- d Prix annuel moyen à la production de toutes les catégories aux postes enregistrés du Canada, et pondéré selon la catégorie pour chaque province.

SECTION 7 - FARM INCOME - TABLES 51 - 54
SECTION 7 - REVENUS AGRICOLES - TABLEAUX 51 - 54

Farm Income

Revenu agricole

Farm Cash Receipts

Farm cash receipts include all cash receipts from the sales of farm products including Canadian Wheat Board participation payments on previous years' grain crops, net cash advances on farm-stored grain in Western Canada and deficiency payments made by the Agricultural Stabilization Board.

Recettes agricoles en espèces

Les recettes agricoles en espèces comprennent toutes les recettes des ventes de produits agricoles, y compris les versements de la Commission canadienne du blé pour les récoltes de céréales de l'année précédente, les avances monétaires nettes sur les céréales entreposées à la ferme dans l'ouest du Canada et les paiements d'appoint de la Commission de stabilisation des prix agricoles.

Net Income

Net income is the sum of farm cash receipts from the sales of farm products, income-in-kind and federal government supplementary payments, less operating expenses and depreciation charges. It is adjusted for inventory changes.

Revenu net

Le revenu net constitue la somme des recettes agricoles en espèces provenant de la vente de produits agricoles, des revenus en nature et des paiements supplémentaires du gouvernement fédéral, moins les dépenses d'exploitation et d'amortissement. Ce chiffre tient compte des variations d'inventaire.

Income-in-Kind

This item represents the value of farm consumption of home-grown foodstuffs, wool and forest products plus an imputed rental value for the farm dwellings. The farm products consumed on the farm are valued at the price the farmer would have received had they been sold.

Revenu en nature

Ce revenu représente la valeur des denrées alimentaires de la laine et des produits forestiers produits et consommés à la ferme, auxquels s'ajoute le fermage calculé des produits agricoles consommés à la ferme sont évalués au prix auquel l'agriculteur aurait pu les vendre.

Supplementary Payments

These include payments made under the provisions of the Prairie Farm Assistance Act, the Western Grain Producers' Acreage Payment Plan, the Prairie Farm Income Plan, the Wheat Acreage Reduction Program, and payments made to Prince Edward Island potato growers in connection with losses as a result of fusarium rot in the 1960 potato crop.

Paiements supplémentaires

Ils comprennent les paiements effectués en vertu de la Loi sur l'assistance à l'agriculture des Prairies, du Programme de paiement des emblavures aux producteurs de l'Ouest, du Programme de stabilisation des revenus agricoles des Prairies, du Programme de réduction des cultures du blé, et, les versements effectués aux producteurs de pommes de terre de l'Ile-du-Prince-Edouard, pour les pertes causées par la pourriture fusarienne sur la récolte de 1960.

Farm Expenses

These include the outlays made by farmers for the operation of the farm business regardless of whether they are paid for in cash or accumulated as new debt. Expenditures for goods and services obtained from other farmers are excluded. All subsidy payments are taken into account so that the estimates of expenditure represent only the net amounts paid by farmers.

Dépenses agricoles

Ce sont les frais d'exploitation de l'agriculteur qui peuvent être, soit des paiements en espèces, soit l'accumulation d'une dette, à l'exclusion des débours effectués pour des marchandises ou des services obtenus d'un autre agriculteur. Ce chiffre tient compte de toutes les subventions de sorte que l'estimation des dépenses ne représente que le montant net déboursé par les agriculteurs.

millions de dollars

million dollars

a Cash receipts from the sale of farm products plus federal government supplementary payments.

a Recettes en espèces obtenues par la vente des produits agricoles plus les paiements d'appoint du gouvernement fédéral.

b Excludes Newfoundland.

b Ne comprend pas Terre-Neuve.

c Components do not necessarily sum to totals because of roundings.

c L'addition des éléments constitutants ne donne pas nécessairement la même somme que le total indiqué parce que l'on a arrondi les chiffres.

d Preliminary.

d Provisoire.

TABLE 44 - TOTAL FARM CASH RECEIPTS FROM THE SALE OF FARM PRODUCTS BY MAJOR COMMODITY GROUPINGS, CANADA^a, PROVINCES AND REGIONS, SELECTED YEARS, 1935 To 1976 (million dollars) (concluded)

TABLEAU 44 - TOTAL DES RECETTES AGRICOLES EN ESPECES OBTENUES PAR LA VENTE DES PRODUITS AGRICOLES PAR GROUPE DE DENREES PRINCIPALES, CANADA^a, PAP PROVINCE ET REGION, ANNEES CHOISIES DE 1935 A 1976 (millions de dollars) (fin)

^a Excludes Newfoundland.

^a Ne comprend pas Terre-Neuve.

^b Includes Canadian Wheat Board payments and net cash advance payments made under the provisions of the Prairie Grain Advance Payments Act, in 1957.

^b Les paiements et les avances en espèces nettes, de la Commission canadienne du blé sous le régime de la Loi sur les paiements anticipés pour le grain des Prairies, en 1957, sont compris sous le titre "Toutes autres recettes".

^c Includes flaxseed, rapeseed, and soybeans.

^c Comprend le lin, le colza et le soja.

^d Includes corn, sugar beets, potatoes, fruits, vegetables, tobacco and other crops.

^d Comprend le maïs, les betteraves à sucre, les pommes de terre, les fruits, les légumes, le tabac et autres récoltes.

^e Rye, sheep and lambs, other livestock and products, forest and maple products, provincial income stabilization program and supplementary payments.

^e Seigle, moutons et agneaux, autres bestiaux et produits, produits forestiers et de l'érable, programme provincial de stabilisation de revenu, ainsi que paiements supplémentaires.

^f Components do not necessary sum to totals because of roundings.

^f L'addition des éléments constituants ne donne pas nécessairement la même somme que le total indiqué parce que l'on a arrondi les chiffres.

^g Preliminary.

^g Provisoire.

^a Excludes Newfoundland.

^a Ne comprend pas Terre-Neuve.

^b Components do not necessarily sum to totals because of roundings.

^b L'addition des éléments constituants ne donne pas nécessairement la même somme que le total indiqué parce que l'on a arrondi les chiffres.

^c Preliminary.

^c Préliminaire.

TABLE 46 - TOTAL FARM OPERATING EXPENSES, CANADA^a, PROVINCES AND REGIONS, SELECTED YEARS, 1935 TO 1976 (million dollars) (concluded)
TABLEAU 46 - TOTAL DES DÉPENSES D'EXPLOITATION AGRICOLE, CANADA^a, PAR PROVINCE ET RÉGION, ANNÉES CHOISIES DE 1935 À 1976 (millions de dollars) (fin)

a	Excludes Newfoundland.
a	Ne comprend pas Terre-Neuve.
b	Owned land and buildings only.
b	Terres et bâtiments possédés seulement.
c	Mortgage payments on owned land and buildings, together with interest payments on all other farm business debt.
c	L'intérêt sur les hypothèques des terres et bâtiments possédés ainsi que l'intérêt sur toutes les autres dettes agricoles.
d	For the farm business.
d	Pour la ferme.
e	Tires, antifreeze, licences, insurance, etc.
e	Pneus, antigel, plaques d'immatriculation, assurances, etc.
f	Pesticides, nursery stock, irrigation, containers, seed and twine.
f	Insecticides, pépinières, irrigation, contenants, semences et ficelle.
g	Purchases through commercial channels only.
g	Achats commerciaux seulement.
h	Livestock purchases, artificial insemination charges, purebred livestock registration fees and veterinary expenses.
h	Achats de bétail, dépenses d'insémination artificielle, frais d'enregistrement des animaux de race et dépenses pour vétérinaires.
i	Fencing, custom work, insurance, and other supplies and services not previously specified.
i	Clôtures, travail spécial, assurances, autres fournitures et services non énumérés auparavant.
j	Included in miscellaneous. Components do not necessarily sum to totals because of roundings.
j	Compris dans divers. L'addition des éléments constitutants ne donne pas nécessairement la même somme que le total indiqué parce que l'on a arrondi les chiffres.
k	Preliminary.
k	Provisoire.

^a Net income is the sum of cash income from the sale of farm products, income-in-kind and federal government supplementary payments less operating and depreciation expenses, and is adjusted for inventory changes.

^a Le revenu net est la somme du revenu en espèces obtenue par la vente de produits agricoles, du revenu en nature ainsi que les paiements supplémentaires reçus du gouvernement fédéral, moins les dépenses d'exploitation et d'amortissement; il est corrigé pour tenir compte des variations d'inventaire.

^b Excludes Newfoundland.

^b Ne comprend pas Terre-Neuve.

^c Components do not necessarily sum to totals because of roundings.

^c L'addition des éléments constituants ne donne pas nécessairement la même somme que le total indiqué parce que l'on a arrondi les chiffres.

^d Preliminary.

^d Provisoire.

a Ne comprend pas les droits de coupe à partir de 1963.

b From 1965 onward data for offshore activity and Hudson Bay activity are included in the total for Canada.

b À partir de 1965, les chiffres relatifs aux travaux effectués au large des côtes et dans la Baie d'Hudson sont compris dans le total pour le Canada.

c In the years 1968 to 1972, data relating to the production of "synthetic" crude oil have been excluded.

c De 1968 à 1972, les chiffres de la production de pétrole brut "synthétique" sont exclus.

1975 ^b	176,383	2,485,690	14,093

a Includes Newfoundland commencing in 1956.

a Comprend Terre-Neuve depuis 1956.

b Since distinction between farm and domestic is increasingly difficult to make, customers reported under farm service in Quebec and Ontario have been combined with domestic.

b La distinction entre les services agricole et domestique est difficile à faire, ainsi les abonnés au service agricole dans Québec et Ontario sont unis au service domestique.

SECTION 8 - FOOD DISAPPEARANCE AND RELATED DATA - TABLES 55 - 61
SECTION 8 - UTILISATION ALIMENTAIRE ET DONNÉES CORRESPONDANTES - TABLEAUX 55 - 61

Food Disappearance
Utilisation alimentaire

Apparent per capita domestic disappearance of food is calculated by dividing the amount of food by the total population.

L'utilisation intérieure apparente des aliments par habitant se calcule en divisant la quantité d'aliments par le chiffre de la population totale.

To arrive at the amount of food available for domestic use, annual balance sheets are prepared showing supplies and disposition of each food. The supply of a commodity is determined by adjusting production figures to take into account exports, imports, changes that take place in processing, inventory changes and losses due to wastage and shrinkage. Deductions are also made for non-food uses.

On calcule la totalité des aliments disponibles à l'utilisation intérieure au moyen de bilans annuels indiquant les disponibilités et l'utilisation de chaque aliment. La disponibilité d'une denrée se détermine en rectifiant les chiffres de production, compte tenu des exportations, des importations, des changements survenant en cours de transformation, des fluctuations des stocks et des pertes provenant des rebus et des pertes de volume. On fait aussi des déductions pour les produits utilisés à d'autres fins qu'à l'alimentation.

This method only estimates the supply of food available to be consumed not the actual consumption; therefore, it is called apparent per capita consumption.

Ce procédé ne permet que d'estimer les disponibilités en aliments consommables et non la consommation réelle, c'est pourquoi on l'appelle utilisation apparente par habitant.

a Preliminary.

a Provisoire

b From 1969, fresh equivalent.

b Exprimés en frais depuis 1969.

c Includes butter, margarine, lard, shortening, salad and cooking oil.

c Comprend beurre, margarine, saindour, graisse alimentaire, huiles à salade et à cuisson.

d From 1969, excludes lard.

d Ne comprend pas le saindour depuis 1969.

e Negligible.

e Négligeable.

f Includes cream expressed as milk.

f Comprend la crème exprimée en lait.

g Part of this product is used for animal feeds.

g Une partie de ce produit est utilisée pour l'alimentation du bétail.

h Imported canned meats only not comparable to the previous years where domestic production was included.

h Comprend viande en conserve importée seulement.

FOREWORD

The purpose of this annual handbook is to provide a handy statistical reference on Canadian agriculture for a large general audience. Most of the data are drawn from Statistics Canada publications.

Data for census years 1941, 1951, 1956, 1961, 1966, 1971 and 1976 are included in order that there be an historical perspective.

Added to the data for the census years are non-census data for the period 1935-1939, the year 1949, and the years 1967 to 1977. The 1935-1939 period extends the historical perspective for non-census data to the immediate pre-war period. In this respect, it is similar to and replaces the year 1941 in the census data. The year 1949 is included because it is one of the important statistical base periods in the immediate post-war years.

For further information, reference should be made to the source publications listed at the end of each table.

Readers are invited to send their comments on this publication using the "Feedback from Readers" form provided at the end of this publication.

AVANT-PROPOS

Ce texte est publié annuellement afin de rendre disponibles toutes les importantes statistiques agricoles canadiennes à une grande variété de lecteurs. La plupart des données sont tirées de publications de Statistique Canada.

Les données des années de recensement 1941, 1951, 1956, 1961, 1971 et 1976 sont incluses afin que le lecteur puisse avoir une perspective historique.

Les données hors-recensement de la période 1935 à 1939, de 1949 et des années 1967 à 1977 sont présentées. La période 1935 à 1939 donne une perspective historique des années qui ont précédé la guerre. Dans ce sens elle est semblable à et remplace 1941 dans les données de recensement. L'année 1949 est inscrite à cause de son importance comme base statistique dans les années d'après guerre.

Pour de plus amples détails, consultez les sources citées au bas des tableaux.

Les lecteurs sont invités à exprimer leurs opinions sur cette publication et un questionnaire est mis à leur disposition à la dernière page.

I. Census Data

1. Farm Population, Number and Percent of Total Population, Canada, Provinces and Regions, Census Years, 1941-1976	3
2. Number and Proportion of Occupied Farms, Canada, Provinces and Regions, Census Years, 1941-1976, According to the Various Definitions of a Census Farm	5
2A. Number and Proportion of Occupied Farms, Canada, Provinces and Regions, Census Years 1951-1976, Defined as a Census Farm in the 1976 Census of Agriculture	6
3. Area and Use of Occupied Farm Land, Canada, Provinces and Regions, Census Years, 1941-1976, According to the Various Definitions of a Census Farm	7
3A. Area and Use of Occupied Farm Land, Canada, Provinces and Regions, Census Years, 1951-1976, Defined as a Census Farm in the 1976 Census of Agriculture	11
3B. Area and Use of Occupied Farm Land, Canada, Provinces and Regions, Census Years, 1951-1976, Defined as a Census Farm in the 1976 Census of Agriculture	15
4. Area and Use of Occupied Farm Land, Percentage Distribution, Canada, Provinces and Regions, Census Years, 1941-1976	19
4A. Area and Use of Occupied Farm Land, Canada, Provinces and Regions, Census Years, 1951-1976, Defined as a Census Farm in the 1976 Census of Agriculture	23
5. Average size of Farms, in Terms of Occupied and Improved Land, Canada, Provinces and Regions, Census Years, 1941-1976, According to the Various Definitions of a Census Farm	27
5A. Average Size of Farms, in Terms of Occupied and Improved Land, Canada, Provinces and Regions, Census Years, 1951-1976, Defined as a Census Farm in the 1976 Census of Agriculture	28
5B. Average Size of Farms, In Terms of Occupied and Improved Land, Canada, Provinces and Regions, Census Years, 1951-1976, Defined as a Census farm in the 1976 Census of Agriculture	29
6. Number and Proportion of Farm Operators by Age Groups, Canada, Census Years, 1941-1976, According to the Various Definitions of a Census Farm	30
6A. Number and Proportion of Farm Operators by Age Groups, Canada, Census Years 1951-1976, Defined as a Census Farm in the 1976 Census of Agriculture	31
7. Number of Farm Operators by Age Groups, Canada, Provinces and Regions, 1976 Defined as a Census Farm in the 1971 Census of Agriculture	32
7A. Number of Farm Operators by Age Groups, Canada, Provinces and Regions, 1976, Defined as a Census Farm in the 1976 Census of Agriculture	33
8. Percentage of Farm Operators by Age Groups, Canada, Provinces and Regions, 1976, Defined as a Census Farm in the 1971 Census of Agriculture	34
8A. Percentage of Farm Operators by Age Groups, Canada, Provinces and Regions, 1976, Defined as a Census Farm in the 1976 Census of Agriculture	35
9. Number of Farm Operators by Age Groups, Canada, Provinces and Regions, 1971 Defined as a Census Farm in the 1971 Census of Agriculture	36
9A. Number of Farm Operators by Age Groups, Canada, Provinces and Regions, 1971, Defined as a Census Farm in the 1976 Census of Agriculture	37
10. Percentage of Farm Operators by Age Groups, Canada, Provinces and Regions, 1971, Defined as a Census Farm in the 1971 Census of Agriculture	38
10A. Percentage of Farm Operators by Age Groups, Canada, Provinces and Regions, 1971, Defined as a Census Farm in the 1976 Census of Agriculture	39
11. Number and Proportion of Census Farms by Tenure of Farm Operators, Canada, Census Years, 1941-1976, According to the Various Definitions of a Census Farm	40
11A. Number and Proportion of Census Farms by Tenure of Farm Operators, Canada, Census Years, 1951-1976, Defined as a census farm in the 1976, Census of Agriculture	41
12. Number and Proportion of Census Farms by Tenure of Farm Operators, Canada, Provinces and Regions, 1976, Defined as a Census Farm in the 1971, Census of Agriculture	42
12A. Number and Proportion of Census Farms by Tenure of Farm Operators, Canada, Provinces and Regions, 1976, Defined as a Census Farm in the 1976 Census of Agriculture	43
13. Education Level of Farmers and Farm Workers and All Occupations, Canada 1961, Labor Force Male and Female 15 Years of Age and Over	44

14.	Distribution of Education Level of Farmers and Farm Workers and All Occupations, Canada, 1961, Labor Force Male and Female 15 Years of Age and Over	45
15.	Distribution of Education Level of Farmers and Farm Workers and All Occupations, Provinces and Regions, 1961, Labor Force Male and Female 15 Years of Age and Over	46
16.	Operators by Level of Schooling, Canada, Provinces and Regions, 1971	50

25A.	Farms with Sales of \$2,500 to \$4,999: Number, Area, and Average Farm Size in Hectares, Canada, Provinces and Regions, Census Years, 1971 and 1976	61
26.	Farms with Sales of \$5,000 to \$9,999: Number, Area and Average Farm Size in Acres, Canada, Provinces and Regions, Census Years, 1971 and 1976	62
26A.	Farms with Sales of \$5,000 to \$9,999: Number, Area, and Average Farm Size in Hectares, Canada, Provinces and Regions, Census Years, 1971 and 1976	63
27.	Farms with Sales of \$10,000 and Over: Number, Area and Average Farm Size in Acres, Canada, Provinces and Regions, Census Years, 1971 and 1976	64
27A.	Farms with Sales of \$10,000 and Over: Number, Area, and Average Farm Size, in Hectares, Canada, Provinces and Regions, Census Years, 1971 and 1976	65
28.	Farms with Sales of \$2,500 and Over: Number, Area and Average Farm Size in Acres, Canada, Provinces and Regions, Census Years, 1971 and 1976	66
28A.	Farms with Sales of \$2,500 and Over: Number, Area, and Average Farm Size, in Hectares, Canada, Provinces and Regions, Census Years, 1971 and 1976	67
29.	Farms with Sales of \$1,200 and Over: Number, Area and Average Farm Size, in Acres, Canada, Provinces and Regions, Census Years, 1971 and 1976	68
29A.	Farms with Sales of \$1,200 and Over: Number, Area and Average Farm Size, in Hectares, Canada, Provinces and Regions, Census Years, 1971 and 1976	69
30.	Machines on Farms, Canada, Provinces and Regions, Census Years, 1941-1976, According to the Various Definitions of a Census Farm	70
30A.	Machines on Farms, Canada, Provinces and Regions 1951-1976, Defined as a Census Farm in the 1976 Census of Agriculture	72
31.	Value of Farm Implement and Equipment Sales by Types, Canada, Selected Years, 1949-1976	74
32.	Farm Tractor Sales, by Horsepower, Canada, 1966-1976	75

II. Capital Values

33.	Capital Values, All Farms, Canada, Provinces and Regions, Census Years, 1941-1976 and 1967-1977	78
34.	Average Capital Value Per Farm, Canada, Provinces and Regions, Census Years, 1941-1976 and 1967-1977	83
35.	Distribution of Farm Capital, Canada, Provinces and Regions, Census Years, 1941-1976 and 1967-1977	89
36.	Business Gross Fixed Capital Formation by Industry, Canada, Selected Years, 1935-1976	95

III. Acres in Crops

37. Acreage of Principal Field Crops, Canada, Provinces and Regions, Selected Years, 1935-1977	98
38. Average Yield Per Acre of Principal Field Crops, Canada, Provinces and Regions, Selected Years, 1935-1977	103
39. Production of Principal Field Crops, Canada, Provinces and Regions, Selected Years, 1935-1977	108

IV. Number of Livestock

40. Numbers of Livestock and Poultry on Farms at June 1, Canada, Provinces and Regions, Selected Years, 1935-1977	115
41. Livestock Slaughtered in Inspected Packing Plants, Canada, Selected Years, 1935-1977	122
42. Prices of Selected Commodities, Canada, Selected Years, 1935-1977	123

V. Farm Cash Receipts

43. Total Farm Cash Receipts, Canada, Provinces and Regions, Selected Years, 1935-1977	127
44. Total Farm Cash Receipts From the Sale of Farm Products by Major Commodity Groupings, Canada, Provinces and Regions, Selected Years, 1935-1977	128

VI. Farm Expenses

45. Total Operating Expenses, Canada, Provinces and Regions, Selected Years, 1935-1977	142
46. Total Farm Operating Expenses, Canada, Provinces and Regions, Selected Years, 1935-1977	143
47. Total Operating and Depreciation Expenses, Canada, Provinces and Regions, Selected Years, 1935-1977	155
48. Total Farm Inputs Price Indexes, Canada, 1966-1977	156
49. Fertilizers Sold for Consumption in Canada, Selected Years, 1935-1976, Lime and Limestone Produced for Agricultural Purposes, Canada, Selected Years, 1935-1975	157
50. Value of Sales of Pest Control Products, Canada, Selected Years, 1949-1976	158

VII. Farm Income

51. Total Net Income of Farm Operators from Farming Operations, Canada, Provinces and Regions, Selected Years, 1935-1976	161
52. Income-in-Kind, Canada, Provinces and Regions, Selected Years, 1935-1977	162
53. Net Value of Production by Industry, Canada, Selected Years, 1935-1975	163
54. Farm Service Furnished by Central Electric Stations, Canada, Selected Years, 1949-1976	164

VIII. Food Disappearance and Related Data

55. Apparent Per Capita Domestic Disappearance of Food, Canada, Selected Years, 1935-1976	167
56. Consumer Price Indexes, Canada, Selected Years, 1935-1977	171
57. Consumer Price Indexes, Selected Food Items, Canada, Selected Years, 1935-1977	172
58. Total Personal Expenditure on Consumer Goods and Services in current dollars, Canada, Selected Years, 1935-1977	173
59. Percentage Distribution of Personal Expenditure on Consumer Goods and Services in current dollars, Canada, Selected Years, 1935-1977	174
60. Per Capita Personal Expenditure on Consumer Goods and Services, in current Dollars Canada, Selected Years, 1935-1977	175

IX. Trade in Agricultural Products

61. Trade in Agricultural Products, Canada, Selected Years, 1935-1977	178
62. Exports of Agricultural Products to All Countries, by Major Commodity Groupings, Canada, Selected Years, 1969-1977	179
63. Imports of Agricultural Products From All Countries by Major Commodity Groupings, Canada, Selected Years, 1949-1968	181

X. Labor Force

64. Total Population, Labor Force, Employed Labor Force, and Persons Employed in Agriculture, Canada, Selected Years, 1935-1977	185
65. Employed Agricultural Labor Force by Class of Workers, Canada, Selected Years, 1949-1977	186
66. Average Wages of Male Help Per Month as at January 15, May 15, and August 15, Canada, Provinces and Regions, Selected Years 1949-1977	187
67. Employment by Industry, Canada, Selected Years, 1961-1977	190
68. Index Numbers of Persons Employed in Agriculture and Selected Industry Groups, Canada, Selected Years, 1949-1977	191
69. Index Numbers of Output of Agriculture and Selected Industry Groups, Canada, Selected Years, 1949-1977	192
70. Index Numbers of Output Per Person Employed in Agriculture and Selected Industry Groups, Canada, Selected Years, 1949-1977	193

1. Population agricole, nombre et pourcentage de la population totale, Canada, par province et région, années de recensement 1941-1976	3
2. Nombre et proportion de fermes occupées, Canada, par province et région, années de recensement 1941-1976, d'après les anciennes définitions d'une ferme de recensement	5
2A. Nombre et proportion de fermes occupées, Canada, par province et région, années de recensement 1941-1976, constitue une ferme de recensement pour le recensement de l'agriculture de 1976	6
3. Superficie et utilisation des terres agricoles occupées, Canada, par province et région, années de recensement 1941-1976, d'après les anciennes définitions d'une ferme de recensement	7
3A. Superficie et utilisation des terres agricoles occupées, Canada, par province et région, années de recensement 1951-1976, constitue une ferme de recensement pour le recensement de l'agriculture de 1976	11
3B. Superficie et utilisation des terres agricoles occupées, Canada, par province et région, années de recensement 1951-1976, constitue une ferme de recensement pour le recensement de l'agriculture de 1976	15
4. Superficie et utilisation des terres agricoles occupées, répartition en pourcentage, Canada, par province et région, années de recensement 1941-1976	19
4A. Superficie et utilisation des terres agricoles occupées, Canada, par province et région, années de recensement 1951-1976, constitue une ferme de recensement pour le recensement de l'agriculture de 1976	23
5. Grandeur moyenne des fermes, exprimée en superficies occupées et défrichées, Canada, par province et région, années de recensement 1941-1976, d'après les anciennes définitions d'une ferme de recensement	27
5A. Grandeur moyenne des fermes, exprimée en superficies occupées et défrichées, Canada, par province et région, années de recensement, 1951-1976 constitue une ferme de recensement pour le recensement de l'agriculture de 1976	28
5B. Grandeur moyenne des fermes, exprimée en superficies occupées et défrichées, Canada, par province et région, années de recensement, 1951-1976 constitue une ferme de recensement pour le recensement de l'agriculture de 1976	29
6. Nombre et proportion d'exploitants classés par groupe d'âge, Canada, années de recensement 1941-1976, d'après les anciennes définitions d'une ferme de recensement	30
6A. Nombre et proportion d'exploitants classés par groupe d'âge, Canada, années de recensement 1951-1976, constitue une ferme de recensement pour le recensement de l'agriculture de 1976	31
7. Nombre d'exploitants par groupe d'âge, Canada, par province et région, 1976, constitue une ferme de recensement pour le recensement de l'agriculture de 1971	32
7A. Nombre d'exploitants par groupe d'âge, Canada, par province et région, 1976, constitue une ferme de recensement pour le recensement de l'agriculture de 1976	33
8. Pourcentage des exploitants par groupe d'âge, Canada, par province et région, 1976, constitue une ferme de recensement de l'agriculture de 1971	34
8A. Pourcentage des exploitants par groupe d'âge, Canada, par province et région, 1976, constitue une ferme de recensement pour le recensement de l'agriculture de 1976	35
9. Nombre d'exploitants par groupe d'âge, Canada, par province et région, 1971, constitue une ferme de recensement pour le recensement de l'agriculture de 1971	36
9A. Nombre d'exploitants par groupe d'âge, Canada, par province et région, 1971, constitue une ferme de recensement pour le recensement de l'agriculture de 1976	37
10. Pourcentage des exploitants par groupe d'âge, Canada, par province et région, 1971, constitue une ferme de recensement pour le recensement de l'agriculture de 1971	38
10A. Pourcentage des exploitants par groupe d'âge, Canada, par province et région, 1971, constitue une ferme de recensement pour le recensement de l'agriculture de 1976	39

11. Nombre et proportion des fermes de recensement selon le mode d'occupation, Canada, années de recensement 1941-1976, d'après les anciennes définitions d'une ferme de recensement	40
11A. Nombre et proportion des fermes de recensement selon le mode d'occupation, Canada, années de recensement 1951-1976, constitue une ferme de recensement pour le recensement de l'agriculture de 1976	41
12. Nombre et proportion des fermes de recensement selon le mode d'occupation, Canada, par province et région, 1976, constitue une ferme de recensement pour le recensement de l'agriculture de 1971	42
12A. Nombre et proportion des fermes de recensement selon le mode d'occupation, Canada, par province et région, 1976, constitue une ferme de recensement pour le recensement de l'agriculture de 1976	43
13. Niveau d'instruction des cultivateurs et des ouvriers agricoles ainsi que pour toutes les autres occupations au Canada, 1961, main-d'oeuvre masculine et féminine âgée de 15 ans et plus	44
14. Répartition du niveau d'instruction des cultivateurs, des ouvriers agricoles et de toutes les autres occupations au Canada, 1961, main-d'oeuvre masculine et féminine de 15 ans et plus	45
15. Répartition du niveau d'instruction des cultivateurs, des ouvriers agricoles et de toutes les autres occupations par province et région, 1961, main-d'oeuvre masculine et féminine de 15 ans et plus	46
16. Exploitants par niveau de scolarité, Canada, par province et région, 1971	50
17. Fermes déclarant des ventes de \$2,500 et plus classées selon le genre de produit, Canada, par province et région, année de recensement 1966	51
18. Fermes déclarant des ventes de \$2,500 et plus classées selon le genre de produit, Canada, par province et région, année de recensement 1971	52
19. Fermes déclarant des ventes de \$2,500 et plus classées selon le genre de produit, Canada, par province et région, année de recensement 1976	53
20. Répartition des fermes déclarant des ventes de \$2,500 et plus classées selon le genre de produit, Canada, par province et région, année de recensement 1966	54
21. Répartition des fermes déclarant des ventes de \$2,500 et plus classées selon le genre de produit, Canada, par province et région, année de recensement 1971	55
22. Répartition des fermes déclarant des ventes de \$2,500 et plus classées selon le genre de produit, Canada, par province et région, année de recensement 1976	56
23. Fermes déclarant des ventes de \$1,200 et moins: nombre, superficie et grandeur moyenne des fermes en acres, Canada, par province et région, années de recensement, 1971 et 1976	57
23A. Fermes déclarant des ventes de \$1,200 et moins: nombre, superficie et grandeur moyenne des fermes en hectares, Canada, par province et région, années de recensement, 1971 et 1976	58
24. Fermes déclarant des ventes de \$2,500 et moins: nombre, superficie et grandeur moyenne des fermes, Canada, par province et région, année de recensement 1971	59
25. Fermes déclarant des ventes de \$2,500 à \$4,999: nombre, superficie et grandeur moyenne des fermes en acres, Canada, par province et région, années de recensement 1971 et 1976	60
25A. Fermes déclarant des ventes de \$2,500 à \$4,999: nombre, superficie et grandeur moyenne des fermes en hectares, Canada, par province et région, années de recensement 1971 et 1976	61
26. Fermes déclarant des ventes de \$5,000 à \$9,999: nombre, superficie et grandeur moyenne des fermes en acres, Canada, par province et région, années de recensement 1971 et 1976	62
26A. Fermes déclarant des ventes de \$5,000 à \$9,999: nombre, superficie et grandeur moyenne des fermes en hectares, Canada, par province et région, années de recensement 1971 et 1976	63
27. Fermes déclarant des ventes de \$10,000 et plus: nombre, superficie et grandeur moyenne des fermes en acres, Canada, par province et région, années de recensement 1971 et 1976	64
27A. Fermes déclarant des ventes de \$10,000 et plus: nombre, superficie et grandeur moyenne des fermes en hectares, Canada, par province et région, années de recensement, 1971 et 1976	65
28. Fermes déclarant des ventes de \$2,500 et plus: nombre, superficie et grandeur moyenne des fermes en acres, Canada, par province et région, années de recensement 1971 et 1976	66

28A. Fermes déclarant des ventes de \$2,500 et plus: nombre, superficie et grandeur moyenne des fermes en hectares, Canada, par province et région, années de recensement, 1971 et 1976	67
29. Fermes déclarant des ventes de \$1,200 et plus: nombre, superficie et grandeur moyenne des fermes en acres, Canada, par province et région, années de recensement 1971 et 1976	68
29A. Fermes déclarant des ventes de \$1,200 et plus: nombre, superficie et grandeur moyenne des fermes en hectares, Canada, par province et région, années de recensement, 1971 et 1976	69
30. Machines dans les fermes, Canada, par province et région, années de recensement 1941-1976, d'après les anciennes définitions d'une ferme de recensement	70
30A. Machines dans les fermes, Canada, par province et région, 1951-1976 constitue une ferme de recensement pour le recensement de l'agriculture de 1976	72
31. Valeur des ventes d'instruments et d'outillage agricoles, selon le genre, Canada, années choisies de 1949-1976	74
32. Ventes de tracteurs selon la puissance en chevaux-vapeur au Canada, 1966-1976	75

II. Valeurs en capital

33. Valeur en capital de toutes les fermes, Canada, par province et région, années de recensement 1941-1976 et 1967-1977	78
34. Valeur moyenne en capital par ferme, Canada, par province et région, années de recensement 1941-1976 et 1967-1977	83
35. Répartition du capital de la ferme, Canada, par province et région, années de recensement 1941-1976 et 1967-1977	89
36. Formation brute de capital fixe par industrie, Canada, années choisies entre 1935-1976	95

III. Acres ensemencées

37. Superficies des principales grandes cultures, Canada, par province et région, années choisies de 1935-1977	98
38. Récolte moyenne par acre des principales grandes cultures, Canada, par province et région, années choisies de 1935-1977	103
39. Production des grandes cultures, Canada, par province et région, années choisies de 1935-1977	108

IV. Nombre de bestiaux

40. Nombre de bestiaux et de volailles dans les fermes le 1 ^{er} juin, Canada, par province et région, années choisies de 1935-1977	115
41. Bestiaux abattus dans les établissements inspectés, Canada, années choisies de 1935-1977	122
42. Prix de certaines denrées, Canada, années choisies de 1935-1977	123

V. Recettes agricoles en espèces

43. Total des recettes agricoles en espèces, Canada, par province et région, années choisies de 1935-1977	127
44. Total des recettes agricoles en espèces obtenues par la vente des produits agricoles, par groupe de denrées principales, Canada, par province et région, années choisies de 1935-1977	128

VI. Dépenses agricoles

45. Total des dépenses d'exploitation, Canada, par province et région, années choisies de 1935-1977	142
46. Total des dépenses d'exploitation agricole, Canada, par province et région, années choisies de 1935-1977	143
47. Total des dépenses d'exploitation et d'amortissement, Canada, par province et région, années choisies de 1935-1977	155

48.	Total des indices de prix des intrants agricoles, Canada, 1966-1977	156
49.	Ventes d'engrais pour la consommation au Canada, années choisies de 1935-1976 chaux et pierre à chaux produites pour fins agricoles au Canada, années choisies de 1935-1975	157
50.	Valeur des ventes de produits antiparasitaires au Canada, années choisies de 1949-1976	158

VII. Revenus agricoles

51.	Revenu net total des agriculteurs provenant de l'exploitation agricole, Canada par province et région, années choisies de 1935-1977	161
52.	Revenu en nature, Canada, par province et région, années choisies de 1935-1977	162
53.	Valeur nette de la production par industrie, Canada, années choisies de 1935-1975	163
54.	Services fournis par les centrales électriques aux agriculteurs, Canada, années choisies de 1949-1976	164

VIII. Utilisation alimentaire et données correspondantes

55.	Utilisation intérieure apparente des aliments par habitant, Canada, années choisies de 1935-1976	167
56.	Indices des prix à la consommation, Canada, années choisies de 1935-1977	171
57.	Indices des prix à la consommation pour des aliments choisis, Canada, années choisies de 1935-1977	172
58.	Dépenses personnelles de consommation en biens et services en dollars courants, Canada, années choisies de 1935-1977	173
59.	Repartition en pourcentage des dépenses personnelles de consommation en biens et services en dollars courants, Canada, années choisies de 1935-1977	174
60.	Dépenses personnelles par habitant de consommation en biens et services en dollars courants, Canada, années choisies de 1935-1977	175

IX. Commerce de produits agricoles

61.	Commerce de produits agricoles, Canada, années choisies de 1935-1977	178
62.	Exportations de produits agricoles à tous les pays par groupe de denrées principales, Canada, années choisies de 1969-1977	179
63.	Importations de produits agricoles de tous les pays, par groupe de denrées principales, Canada, années choisies de 1949-1968	181

X. Main-d'oeuvre

64.	Population totale, effectif ouvrier, main-d'oeuvre occupée et personnes employées dans l'agriculture, Canada, années choisies de 1935-1977	185
65.	Main-d'oeuvre agricole occupée selon la classe de travailleurs, Canada, années choisies de 1949-1977	186
66.	Moyenne des salaires des travailleurs de sexe masculin, le 15 janvier, le 15 mai et le 15 août, Canada, par province et région, années choisies de 1949-1977	187
67.	Emploi par industrie, Canada, années choisies de 1961-1977	190
68.	Indice du nombre de personnes employées en agriculture et dans des groupes particuliers d'industries, Canada, années choisies de 1949-1977	191

	Page
69. Chiffres indices de la production agricole et des groupes particuliers d'industries, Canada, années choisies de 1949-1977	192
70. Chiffres indices de la production par habitant employé en agriculture et dans des groupes industriels particuliers, Canada, années choisies de 1949-1977	193

I. CENSUS DATA

I. DONNÉES DE RECENSEMENT

CENSUS DATA

POPULATION - The "Farm" population comprises all persons living on a census farm, regardless of their occupation. The same definition applied to all censuses, 1951, 1956, 1961, 1966, 1971 and 1976.

DEFINITION OF A FARM - In the 1941 census a farm was defined as all the land located in one municipality or census subdivision which was directly farmed by one person conducting agricultural operations either by his own labor or with the assistance of members of his household or with hired help. A farm could consist of a single tract of land or a number of separate tracts held under the same or different tenures so long as the total area was one acre or more in extent and had agricultural production in 1940 valued at \$50 or more. For purposes of the 1951 census, a farm was defined to be three acres or more in size or one to three acres in size with agricultural production in 1950 of a value of \$250 or more. Where a farm consisted of a number of parts all of which were not situated in the same municipality the census reported the complete farm as one unit in the municipality where the head-quarters were located. In the 1961, 1966 and 1971 censuses, a farm was defined as an agricultural holding of one acre or more with sales of agricultural products during the previous 12 months of \$50 or more. In the 1976 census, a farm was defined as a farm, ranch or other agricultural holdings of one acre or more with sales of agricultural products during the year 1975 of \$1,200 or more.

The number of farms in Canada was 732,858 in 1941, according to the then prevailing census definition of a farm; this number would come down to 677,500 if the 1951 definition had been used. In 1961 the number of farms was 480,903 on the basis of the 1961 census definition; had the 1951 definition been used, this figure would have been increased by 40,731. In 1966, the number of farms totaled 430,522. Farms, for census purposes, obviously include some units that do not correspond to what is commonly considered to be a farm. In 1971 and 1976, the number of farms totaled 366,128 and 338,578 respectively.

DONNÉES DE RECENSEMENT

POPULATION - La population "agricole" comprend toutes les personnes habitant une ferme de recensement, peu importe leur occupation. La même définition s'est appliquée à tous les recensements (1951, 1956, 1961, 1966, 1971 et 1976).

DÉFINITION DE "FERME" - Dans le recensement de 1941, on entend par ferme la totalité des terres situées dans une municipalité ou une subdivision de recensement qui sont directement exploitées par une personne qui se livre à des spéculations agricoles, soit seul, soit avec l'aide des membres de sa famille ou d'employés salariés. Une ferme peut être d'un seul tenant ou comporter un certain nombre de parcelles distinctes relevant d'un même régime foncier ou de régimes différents, pour autant que la superficie totale soit d'une acre ou plus et que la valeur de la production agricole soit au moins de \$50 (valeur de 1940). Le recensement de 1951 entend par ferme toute exploitation de trois acres ou plus ou d'une acre à trois acres dont la valeur de production en 1950 était d'au moins \$250 ou plus. Dans le cas d'une ferme se composant d'un certain nombre de parties non situées en totalité dans la même municipalité, le recensement déclare la ferme entière comme unité située dans la même municipalité que le domicile de l'exploitant. Aux recensements de 1961, 1966 et 1971, on définissait la ferme de la façon suivante: propriété agricole d'une acre ou plus dont les ventes de produits agricoles dans les 12 mois précédents ont rapporté au moins \$50. Dans le recensement de 1976, on définissait la ferme comme étant une ferme, un ranch ou toute exploitation agricole d'une acre ou plus dont les ventes de produits agricoles en 1975 se sont élevées à \$1,200 ou plus.

Il y avait 732,858 fermes au Canada en 1941, au sens du recensement appliqué à l'époque; ce nombre serait passé à 677,500 si l'on avait appliqué la définition de 1951. En 1961, il était de 480,903, suivant la définition établie pour cette année; selon les normes de 1951, il aurait compté 40,731 fermes de plus. En 1966, le nombre de fermes s'élevait à 430,522. Il est bien évident que les "fermes", d'après la définition du recensement, comprennent des unités qui ne correspondent pas à ce que l'on entend normalement par "ferme". En 1971 et 1976, le nombre de fermes s'établissait respectivement à 366,128 et 338,578.

^aFigures not necessarily comparable between census years due to changes in the definition of a "census farm".

Les chiffres ne se comparent pas nécessairement d'une année à l'autre en raison du changement apporté à la définition de l'expression "fermes de recensement".

^bIncludes data for Yukon and Northwest Territories.

Comprend les données du Yukon et des Territoires du Nord-Ouest.

^aFigures not necessarily comparable between census years due to changes in the definition of a "census farm".

Les chiffres ne se comparent pas nécessairement d'une année à l'autre en raison du changement apporté à la définition de l'expression "Ferme de recensement".

^bComponents will not necessarily sum to totals because of roundings.

L'addition des groupes ne donnera pas nécessairement la même somme que le total indiqué parce que l'on a arrondi les chiffres.

^c"Improved Land" includes a category enumerated as "other improved land" as well as "Crops", "Fallow" and "Pasture". "Other improved land" includes the area of barnyards, home gardens, lanes and roads on farms, new breaking and improved land lying idle.

"Les terres défrichées" comprennent une catégorie désignée sous le nom de "autres terres défrichées" aussi bien que les terres en culture, en jachère et en pâturage. Les "autres terres défrichées" comprennent les cours, les jardins potagers, les entrées et chemins de ferme, ainsi que les terres nouvellement défrichées et les terres défrichées non utilisées.

^dIncludes fields, vegetables, fruit and nursery crop land.

Comprend la terre à grandes cultures, à légumes, à fruits et à pépinières.

^eIncludes data for Newfoundland and the Yukon and Northwest Territories, from 1951.

Comprend aussi les données pour Terre-Neuve, le Yukon et les Territoires du Nord-Ouest à partir de 1951.

^aCensus farm is defined as a farm, ranch or other agricultural holding of one acre or more with sales of agricultural products during the year 1975 of \$1,200 or more.

Ferme de recensement est définie au recensement de l'agriculture de 1976 comme étant une ferme, un ranch ou toute autre exploitation agricole d'une acre ou plus dont les ventes de produits agricoles en 1975 se sont élevées à \$1,200 ou plus.

^bComponents will not necessarily sum to totals because of roundings.

L'addition des groupes ne donnera pas nécessairement la même somme que le total indiqué parce que l'on a arrondi les chiffres.

^cIncludes field, vegetable, fruit and nursery crop land.

Comprend la terre à grandes cultures à légumes, à fruits et à pépinières.

^dIncludes data for Yukon and Northwest Territories.

Comprend les données du Yukon et des Territoires du Nord-Ouest.

^aCensus farm is defined as a farm, ranch or other agricultural holding of one acre or more with sales of agricultural products during the year 1975 of \$1,200 or more.

Ferme de recensement est définie au recensement de l'agriculture de 1976 comme étant une ferme, un ranch ou toute autre exploitation agricole d'une acre ou plus dont les ventes de produits agricoles en 1975 se sont élevées à \$1,200 ou plus.

^bComponents will not necessarily sum to totals because of roundings.

L'addition des groupes ne donnera pas nécessairement la même somme que le total indiqué parce que l'on a arrondi les chiffres.

^cIncludes field, vegetable, fruit and nursery crop land.

Comprend la terre à grandes cultures, à légumes, à fruits et à pépinières.

^dIncludes data for Yukon and Northwest Territories.

Comprend les données du Yukon et des Territoires du Nord-Ouest.

^aFigures not necessarily comparable between census years due to changes in the definition of a "census farm".

Les chiffres ne se comparent pas nécessairement d'une année à l'autre en raison du changement apporté à la définition de l'expression "Ferme de recensement".

^bComponents will not necessarily sum to totals because of roundings.

L'addition des groupes ne donnera pas nécessairement la même somme que le total indiqué parce que l'on a arrondi les chiffres.

^c"Improved Land" includes a category enumerated as "other improved land" as well as "Crops", "Fallow" and "Pasture". "Other improved land" includes the area of barnyards, home gardens, lanes and roads on farms, new breaking and improved land lying idle.

Les "terres défrichées" comprennent une catégorie désignée sous le nom de "autres terres défrichées", aussi bien que les terres en culture, en jachère et en pâturage. Les "autres terres défrichées" comprennent les cours, les jardins potagers, les entrées et chemins de ferme, ainsi que les terres nouvellement défrichées et les terres défrichées non utilisées.

^dIncludes field, vegetable, fruit and nursery crop land.

Comprend la terre à grandes cultures, à légumes, à fruits et à pépinières.

^eIncludes data for Newfoundland and the Yukon and Northwest Territories, from 1951.

Comprend aussi les données pour Terre-Neuve, le Yukon et les Territoires du Nord-Ouest à partir de 1951.

^aCensus farm is defined as a farm, ranch or other agricultural holding of one acre or more with sales of agricultural products during the year 1975 of \$1,200 or more.

Ferme de recensement est définie au recensement de l'agriculture de 1976 comme étant une ferme, un ranch ou toute autre exploitation agricole d'une acre ou plus dont les ventes de produits agricoles en 1975 se sont élevées à \$1,200 ou plus.

^bComponents will not necessarily sum to totals because of roundings.

L'addition des groupes ne donnera pas nécessairement la même somme que le total indiqué parce que l'on a arrondi les chiffres.

^cIncludes field, vegetable, fruit and nursery crop land.

Comprend la terre à grandes cultures, à légumes, à fruits et à pépinières.

^dIncludes data for Yukon and Northwest Territories.

Comprend les données du Yukon et des Territoires du Nord-Ouest.

Source: Calculated from data in **1976 Census of Canada**, Agriculture, Statistique Canada.

Ces pourcentages ont été établis d'après les données du **Recensement du Canada de 1976**, Agriculture Statistique Canada.

Les chiffres pour 1956 ne sont pas disponibles.

^cThe figures for the total number of operators reporting age is the same as the number of census farms for 1961, 1966, 1971 and 1976. For the two other censuses not all operators reported their age, and subsequently the total number of operators reporting is lower than the total number of census farms; the former were, 1941: 732,832; and 1951: 623,091 census farms.

Le chiffre du nombre global des exploitants ayant déclaré leur âge est le même que le nombre des fermes de recensement pour 1961, 1966, 1971 et 1976. Lors des deux autres recensements, tous les exploitants n'ont pas indiqué leur âge, de sorte que le nombre global des exploitants ayant déclaré leur âge est inférieur au nombre global des fermes de recensement; on comptait 732,832 de ces exploitations en 1941 et 623,091 en 1951.

^bIn the 1971 and 1976 Censuses, a hired manager was asked to report whether the land operated by him was owned or rented by his employer. This was a change from previous censuses wherein a farm operated by a hired manager was classified as being managed rather than owned or rented.

Dans les recensements de 1971 et 1976 les gérants ont été demandés si la terre qu'ils géraient était possédée ou louée par son employeur. Ce fait constitue la différence entre les recensements de 1971 et 1976 et les précédents, car, auparavant, une ferme gérée par un gérant était classifiée "gérant" au lieu de "propriétaire" ou "locataire".

^aDue to differences in definition, the number of farmers and stockraisers in these and the following tables on education are not the same as the number of farms in the census of agriculture.

En raison de différences dans la définition, le nombre de cultivateurs et d'éleveurs de bestiaux dans les tableaux 13 et 14 de même que dans les suivants se rapportant à l'instruction, n'est pas le même que le nombre de fermes dans le recensement agricole.

^aFrom 1951, includes data for Yukon and Northwest Territories.

Comprend, depuis 1951, les données du Yukon et des Territoires du Nord-Ouest.

^bFigures for 1956 are not available. Pick-up hay baler, and forage crop harvested, commenced in 1961, milking machine in 1951.

Chiffres non disponibles pour 1956. On ne possède des chiffres sur les presses-ramasseuses à foin et les moissonneuses de plantes fourragères que depuis 1961; sur les trayeuses mécaniques, que depuis 1951.

^aValues are at wholesale prices and exclude repair parts.

Les valeurs s'entendent aux prix de gros et ne comprennent pas de pièces de rechange.

^bMiscellaneous includes machines for preparing crops for market or for use; spraying and dusting (orchard or garden) equipments; farm wagons, boxes, and sleighs; water systems; pumps and septic tanks, farm dairy machinery and equipment, barn, poultry and other farm equipment.

Le poste "Divers" comprend les machines servant à la préparation des récoltes pour le marché ou l'utilisation; les machines de pulvérisation et de poudrage (verger ou jardin); les chariots, camions et traîneaux de ferme; les groupes d'adduction d'eau, les pompes et les fosses septiques, machines et outillage laitiers de fermes, granges, ou poulaillers, et tout autre outillage agricole.

^aFigures not necessarily comparable between census years due to changes in the definition of a "census farm". For the census years 1961, 1966, 1971 and 1976 a census farm was defined as a farm ranch or other agricultural holding of one acre or more with sales of agricultural products during the year 1975 of \$1,200 or more.

Les chiffres ne se comparent pas nécessairement d'une année à l'autre en raison du changement apporté à la définition de l'expression "fermes de recensement". Pour les années de recensements de 1961, 1966, 1971 et 1976 une ferme était définie comme étant une ferme, un ranch ou toute autre exploitation agricole d'une acre ou plus dont les ventes de produits agricoles en 1975 se sont élevées à \$1,200 ou plus.

^bComponents do not necessarily sum to totals because of roundings.

L'addition des éléments constitutants ne donne pas nécessairement les mêmes totaux parce qu'on a arrondi les chiffres.

^cAutomobiles and motor trucks are included in this category.

Les automobiles et camions sont compris dans cette catégorie.

^dFrom 1967 figures for livestock and poultry includes value of animals on fur farms; taken from the **Quarterly Bulletin of Agricultural Statistics**, Cat. No. 21-003, April to June 1977.

À partir de 1967, les chiffres pour bétail et volaille comprennent la valeur des animaux dans les fermes d'élevage d'animaux à fourrures; extraits du **Bulletin trimestriel de la statistique agricole**, no de catalogue 21-003, avril à juin 1977. Statistique Canada.

^eIncludes Newfoundland, and the Yukon and Northwest Territories.

Comprend Terre-Neuve, le Yukon et les Territoires du Nord-Ouest.

^fExcludes Newfoundland, and the Yukon and Northwest Territories.

Ne comprend pas Terre-Neuve, le Yukon et les Territoires du Nord-Ouest.

^gExcludes Newfoundland.

Ne comprend pas Terre-Neuve.

^pPreliminary.

Provisoire.

^aFigures not necessarily comparable between census years due to changes in the definition of a "census farm". For the census years 1961, 1966, 1971 and 1976 a census farm was defined as a farm ranch or other agricultural holding of one acre or more with sales of agricultural products during the year 1975 of \$1,200 or more.

Les chiffres ne se comparent pas nécessairement d'une année à l'autre en raison du changement apporté à la définition de l'expression "fermes de recensement". Pour les années de recensements de 1961, 1966, 1971 et 1976 une ferme était définie comme étant une ferme, un ranch ou toute autre exploitation agricole d'une acre ou plus dont les ventes de produits agricoles en 1975 se sont élevées à \$1,200 ou plus.

^bAutomobiles and motor trucks are included in this category.

Les automobiles et les camions entrent dans cette catégorie.

^cFrom 1967 figures for livestock and poultry includes value of animals on fur farms; calculated from the **Quarterly Bulletin of Agricultural Statistics**, Cat. No. 21-003, April to June 1977.

A partir de 1967, les chiffres pour bétail et volaille comprennent la valeur des animaux dans les fermes d'animaux à fourrure: extraits du **Bulletin trimestriel de la statistique agricole**, no de catalogue 21-003, avril à juin 1977, Statistique Canada.

^dIncludes Newfoundland, and the Yukon and Northwest Territories.

Comprend Terre-Neuve, le Yukon et les Territoires du Nord-Ouest.

^eExcludes Newfoundland, and the Yukon and Northwest Territories.

Ne comprend pas Terre-Neuve, le Yukon et les Territoires du Nord-Ouest.

^fExcludes Newfoundland.

Ne comprend pas Terre-Neuve.

^pPreliminary.

Provisoire.

1976	100.0	83.6	10.2	6.2
1977P	100.0	85.1	8.7	6.2

^dFigures not necessarily comparable between census years due to changes in the definition of a "census farm". For the census years 1961, 1966, 1971 and 1976 a census farm was defined as a farm ranch or other agricultural holding of one acre or more with sales of agricultural products during the year 1975 of \$1,200 or more.

Les chiffres ne se comparent pas nécessairement d'une année à l'autre en raison du changement apporté à la définition de l'expression "fermes de recensement". Pour les années de recensements de 1961, 1966, 1971 et 1976 une ferme était définie comme étant une ferme, un ranch ou toute autre exploitation agricole d'une acre ou plus dont les ventes de produits agricoles en 1975 se sont élevées à \$1,200 ou plus.

^bComponents do not necessarily sum to totals because of roundings.

L'addition des éléments constitutants ne donne pas nécessairement les mêmes totaux parce que l'on a arrondi les chiffres.

^cAutomobiles and motor trucks are included in this category.

Les automobiles et les camions entrent dans cette catégorie.

^dFrom 1967 figures for livestock and poultry includes value of animals on fur farms; calculated from the **Quarterly Bulletin of Agricultural Statistics**, Cat. No. 21-003, April to June 1977, Statistics Canada.

A partir de 1967, les chiffres pour bétail et volaille comprennent la valeur des animaux dans les fermes d'animaux à fourrure: extraits du **Bulletin trimestriel de la statistique agricole**, no de catalogue 21-003, avril à juin 1977, Statistique Canada.

^eIncludes Newfoundland, and the Yukon and Northwest Territories.

Comprend Terre-Neuve, le Yukon et les Territoires du Nord-Ouest.

^fExcludes Newfoundland, and the Yukon and Northwest Territories.

Ne comprend pas Terre-Neuve, le Yukon et les Territoires du Nord-Ouest.

^gExcludes Newfoundland.

Ne comprend pas Terre-Neuve.

^hPreliminary.

Provisoire.

^aExcludes Newfoundland.

Ne comprend pas Terre-Neuve.

^bComponents do not necessarily sum to totals because of roundings.

L'addition des éléments constitutants ne donnera pas nécessairement la même somme que le total indiqué parce que l'on a arrondi les chiffres.

^aAverage 1935-1939 live weights. Average annual price of Grade A hogs, dressed weight, at Toronto, excluding premiums. Effective 1969 Grade A hogs, replaced by Index 100.

Moyenne, poids vif, 1935-1939. Prix moyen pour des carcasses habillées de porc de la catégorie A, à Toronto, primes non comprises. Depuis 1969, la catégorie A pour les porcs a été remplacée par l'indice 100.

^bAverage annual price of Choice slaughter steers, live weights, at Toronto. The average price for the average 1935-1939 is the simple average of the price for steers over 1,050 pounds and the price for steers under 1,050 pounds. The average annual price from 1949 to 1957 is the simple average of the price for steers over 1,000 pounds and the price for steers under 1,000 pounds. From 1958 to 1977, the prices are weighted averages for all weights of steers.

Prix annuel moyen, poids vif, des bouvillons d'abattage classés de choix à Toronto. Le prix moyen ayant déterminé la moyenne de 1935-1939 est la moyenne du prix des bouvillons de plus de 1,050 livres et du prix de ceux de moins de 1,050 livres. Le prix annuel moyen de la période 1949-1957 est la moyenne du prix des bouvillons de plus de 1,000 livres et du prix de ceux de moins de 1,000 livres. De 1958-1977, les prix sont des moyennes pondérées pour les bouvillons de tous poids.

^cAverage annual price to producers of Grade A chicken, live weigh, at Toronto. From 1949-1956, the prices refer to chickens weighing less than three pounds; from 1957-1963 chickens weighing less than four pounds; from 1964-1977 chickens less than five pounds.

Prix annuel moyen à la production des poulets de la catégorie A (poids vif) à Toronto. De 1949-1956, les prix se rapportent aux poulets pesant moins de 3 livres, de 1957-1963, aux poulets pesant moins de 4 livres; de 1964-1977 aux poulets pesant moins de 5 livres.

^dAverage annual price to producers for all grades at registered grading stations in Canada, weighted by grade for each province.

Prix annuel à la production de toutes les catégories aux postes enregistrés du Canada, et pondéré selon la catégorie pour chaque province.

V. FARM CASH RECEIPTS

V. RECETTES AGRICOLES EN ESPÈCES

FARM CASH RECEIPTS

FARM CASH RECEIPTS - Farm cash receipts include all cash receipts from the sales of farm products including Canadian Wheat Board participation payments on previous years' grain crops, net cash advances on farm-stored grain in Western Canada and deficiency payments made by the Agricultural Stabilization Board.

RECETTES AGRICOLES EN ESPÈCES

RECETTES AGRICOLES EN ESPÈCES - Les recettes agricoles en espèces comprennent toutes les recettes des ventes de produits agricoles, y compris les versements de la Commission canadienne du blé pour les récoltes de céréales de l'année précédente, les avances monétaires nettes sur les céréales entreposées à la ferme dans l'ouest du Canada et les paiements d'appoint de la Commission de stabilisation des prix agricoles.

VI. FARM EXPENSES

VI. DÉPENSES AGRICOLES

FARM EXPENSES

FARM EXPENSES - These include the outlays made by farmers for the operation of the farm business regardless of whether they are paid for in cash or accumulated as new debt. Expenditures for goods and services obtained from other farmers are excluded. All subsidy payments are taken into account so that the estimates of expenditure represent only the net amounts paid by farmers.

DÉPENSES AGRICOLES

DÉPENSES AGRICOLES - Ce sont les frais d'exploitation de l'agriculteur qui peuvent être, soit des paiements en espèces, soit l'accumulation d'une dette, à l'exclusion des débours effectués pour des marchandises ou des services obtenus d'un autre agriculteur. Ce chiffre tient compte de toutes les subventions de sorte que l'estimation des dépenses ne représente que le montant net déboursé par les agriculteurs.

VII. FARM INCOME

VII. REVENUS AGRICOLES

FARM INCOME

NET INCOME - Net income is the sum of farm cash receipts from the sales of farm products, income-in-kind and federal government supplementary payments, less operating expenses and depreciation charges. It is adjusted for inventory changes.

INCOME-IN-KIND - This item represents the value of farm consumption of home-grown foodstuffs, wool and forest products plus an imputed rental value for the farm dwellings. The farm products consumed on the farm are valued at the price the farmer would have received had they been sold.

SUPPLEMENTARY PAYMENTS - These include payments made under the provisions of the Prairie Farm Assistance Act, the Western Grain Producers' Acreage Payment Plan, the Prairie Farm Income Plan, the Wheat Acreage Reduction Program, and payments made to Prince Edward Island potato growers in connection with losses as a result of fusarium rot in the 1960 potato crop.

REVENUS AGRICOLES

REVENU NET - Le revenu net constitue la somme des recettes agricoles en espèces provenant de la vente de produits agricoles, des revenus en nature et des paiements supplémentaires du gouvernement fédéral, moins les dépenses d'exploitation et d'amortissement. Ce chiffre tient compte des variations d'inventaire.

REVENU EN NATURE - Ce revenu représente la valeur des denrées alimentaires, de la laine et des produits forestiers produits et consommés à la ferme, auxquels s'ajoute le fermage calculé des produits agricoles consommés à la ferme. Les produits de la ferme sont évalués au prix auquel l'agriculteur aurait pu les vendre.

PAIEMENTS SUPPLÉMENTAIRES - Ils comprennent les paiements effectués en vertu de la Loi sur l'assistance à l'agriculture des Prairies, du Programme de paiement des emblavures aux producteurs de l'Ouest, du Programme de stabilisation des revenus agricoles des Prairies, du Programme de réduction des cultures du blé, et, les versements effectués aux producteurs de pommes de terre de l'Île-du-Prince-Édouard, pour les pertes causées par la pourriture fusarienne sur la récolte de 1960.

VIII. FOOD DISAPPEARANCE AND RELATED DATA

VIII. UTILISATION ALIMENTAIRE ET DONNÉES CORRESPONDANTES

FOOD DISAPPEARANCE AND RELATED DATA

FOOD DISAPPEARANCE - Apparent per capita domestic disappearance of food is calculated by dividing the amount of food by the total population.

To arrive at the amount of food available for domestic use, annual balance sheets are prepared showing supplies and disposition of each food. The supply of a commodity is determined by adjusting production figures to take into account exports, imports, changes that take place in processing, inventory changes and losses due to wastage and shrinkage. Deductions are also made for non-food uses.

This method only estimates the supply of food available to be consumed not the actual consumption; therefore, it is called *apparent* per capita consumption.

UTILISATION ALIMENTAIRE ET DONNÉES CORRESPONDANTES

UTILISATION ALIMENTAIRE - L'utilisation intérieure apparente des aliments par habitant se calcule en divisant la quantité d'aliments par le chiffre de la population totale.

On calcule la totalité des aliments disponibles à l'utilisation intérieure au moyen de bilans annuels indiquant les disponibilités et l'utilisation de chaque aliment. La disponibilité d'une denrée se détermine en rectifiant les chiffres de production, compte tenu des exportations, des importations, des changements survenant en cours de transformation, des fluctuations des stocks et des pertes provenant des rebus et des pertes de volume. On fait aussi des déductions pour les produits utilisés à d'autres fins qu'à l'alimentation.

Ce procédé ne permet que d'estimer les disponibilités en aliments consommables et non la consommation réelle, c'est pourquoi on l'appelle *utilisation apparente* par habitant.

^aPreliminary.

^bProvisoire.

^cFrom 1969, fresh equivalent.

Exprimés en frais depuis 1969.

^eExcludes production of baked, canned beans.

Ne comprend pas les haricots cuits en boîtes.

^dIncludes tomatoes.

Comprend les tomates.

^eIncludes butter, margarine, lard, shortening, salad and cooking oil.

Comprend beurre, margarine, saindoux, graisse alimentaire, huiles à salade et à cuisson.

^fFrom 1969, excludes lard.

Ne comprend pas le saindoux depuis 1969.

^gNegligible.

Négligeable.

^hIncludes cream expressed as milk.

Comprend la crème exprimée en lait.

ⁱPart of this product is used for animal feeds.

Une partie de ce produit est utilisée pour l'alimentation du bétail.

^jImported canned meats only not comparable to the previous years where domestic production was included.

Comprend viande en conserve importée seulement.

^aFrom 1958 on this category excludes "Special Transactions Non Trade". This change was made to correspond with changes in classification made by Statistics Canada.

A partir de 1958, cette catégorie ne comprend plus les "Transactions spéciales non commerciales". Cette rectification a été faite pour correspondre aux changements de classification décidés par Statistique Canada.

^bFrom 1949 to 1958, seed wheat and seed oats are included in this category. From 1959, seed wheat and seed oats are excluded.

De 1949 à 1958, les semences de blé et d'avoine entraient dans cette catégorie. Depuis 1959, les semences de blé et d'avoine en sont exclues.

^cFrom 1949 to 1960, this category includes millfeeds and fodder only. From 1961 the category is called "Animal feeds of vegetable or animal origin".

De 1949 à 1960, cette catégorie comprend seulement les issues de mouture et les fourrages. Depuis 1961, cette catégorie s'appelle "Aliments du bétail d'origines animale et végétale".

^dExcludes potatoes.

Ne comprend pas les pommes de terre.

^eIncludes seed wheat and seed oats from 1959.

Comprend les semences de blé et d'avoine depuis 1959.

^aFrom 1958 on this category excludes "Special Transactions Non Trade". This change was made to correspond with changes in classification made by Statistics Canada.

Depuis 1958, cette catégorie ne comprend plus les "Transactions spéciales non commerciales". Cette rectification a été faite pour correspondre aux changements de classification décidés par Statistique Canada.

^bFrom 1949 to 1958, seed wheat and seed oats are included in this category. From 1959 seed wheat and seed oats are excluded.

De 1949 à 1958, les semences de blé et d'avoine entraient dans cette catégorie. Depuis 1959, les semences de blé et d'avoine en sont exclues.

^cFrom 1949 to 1960, this category includes millfeeds and fodder only. From 1961, the category is called "Animal feeds of vegetable or animal origin".

De 1949 à 1960, cette catégorie comprend seulement les issues de mouture et les fourrages. Depuis 1961, cette catégorie s'appelle "Aliments du bétail d'origines animale et végétale".

^dIncludes 62,635,000 pounds of butter valued at \$31,446,000, 1973; 53,765,800 pounds of butter valued at \$31,237,000, 1974; 10,063,900 pounds of butter valued at \$5,897,000, 1975.

Comprend 62,635,000 livres de beurre d'une valeur de \$31,446,000, 1973; 53,765,800 livres de beurre d'une valeur de \$31,237,000; 1974; (10,063,900 livres de beurre d'une valeur de \$5,897,000); 1975.

^eExcludes potatoes.

Ne comprend pas les pommes de terre.

^fIncludes seed wheat and seed oats, from 1959.

Comprend les semences de blé et d'avoine depuis 1959.

^gFrom 1949 to 1962, the category "Honey" includes honey and bees.

Depuis 1949 jusqu'en 1962, la catégorie "Miel" comprend le miel et les abeilles.

^a1960 standard industrial classification.

Classification type des industries, 1960.

^bIncludes forestry, fishing and trapping, mines, quarries, and oil wells.

Y compris les forêts, pêches, piégeage, mines, carrières et puits de pétrole.

^cIncludes business, personal, community and public, recreational and government service.

Y compris les services d'affaires, personnels, socio-culturels, de récréation et officiels.

^dExcludes persons male and female under 14 years of age, members of the armed forces, Indians living on reserves, inmates of institutions and residents of the Yukon and Northwest Territories.

Ne comprend pas les personnes âgées de moins de 14 ans, les membres des forces armées, les indiens vivant dans les réserves, les pensionnaires d'institutions, les résidents du Yukon et des Territoires du Nord-Ouest.

^eComponents will not necessarily sum to totals because of roundings.

L'addition des éléments constitutants ne donne pas nécessairement la même somme que le total indiqué parce que l'on a arrondi les chiffres.

^aCommercial non-agricultural goods-producing industries include: forestry, fishing and trapping, mining, manufacturing, electric power and gas utilities, and construction.

Les industries non agricoles produisant des marchandises comprennent: exploitation forestière, pêches, piégeage, mines, manufactures, les services d'électricité et de gaz, la construction.

^bCommercial service-producing industries include: transportation, storage, communications, wholesale and retail trade, finance, insurance and real estate, recreation, business and personal services. Services which are not generally established for the purpose of making financial gain are excluded: for example, public administration and defence, educational institutions and hospitals.

Les industries commerciales offrant des services comprennent: transports, entrepôts, communications, commerce de gros et de détail, finance, assurance, affaires immobilières, récréation, services d'affaires et personnels. Ne sont pas compris les services qui n'ont généralement pas de but lucratif, par exemple ceux de l'administration publique, de la défense, les institutions d'enseignement et les hôpitaux.

^cCommercial non-agricultural industries exclude such non-commercial industries as public administration and defence, educational institutions and hospitals.

Les industries commerciales non agricoles ne comprennent pas des industries non commerciales comme l'administration publique, la défense, les institutions d'enseignement et les hôpitaux.
